

Supplementary

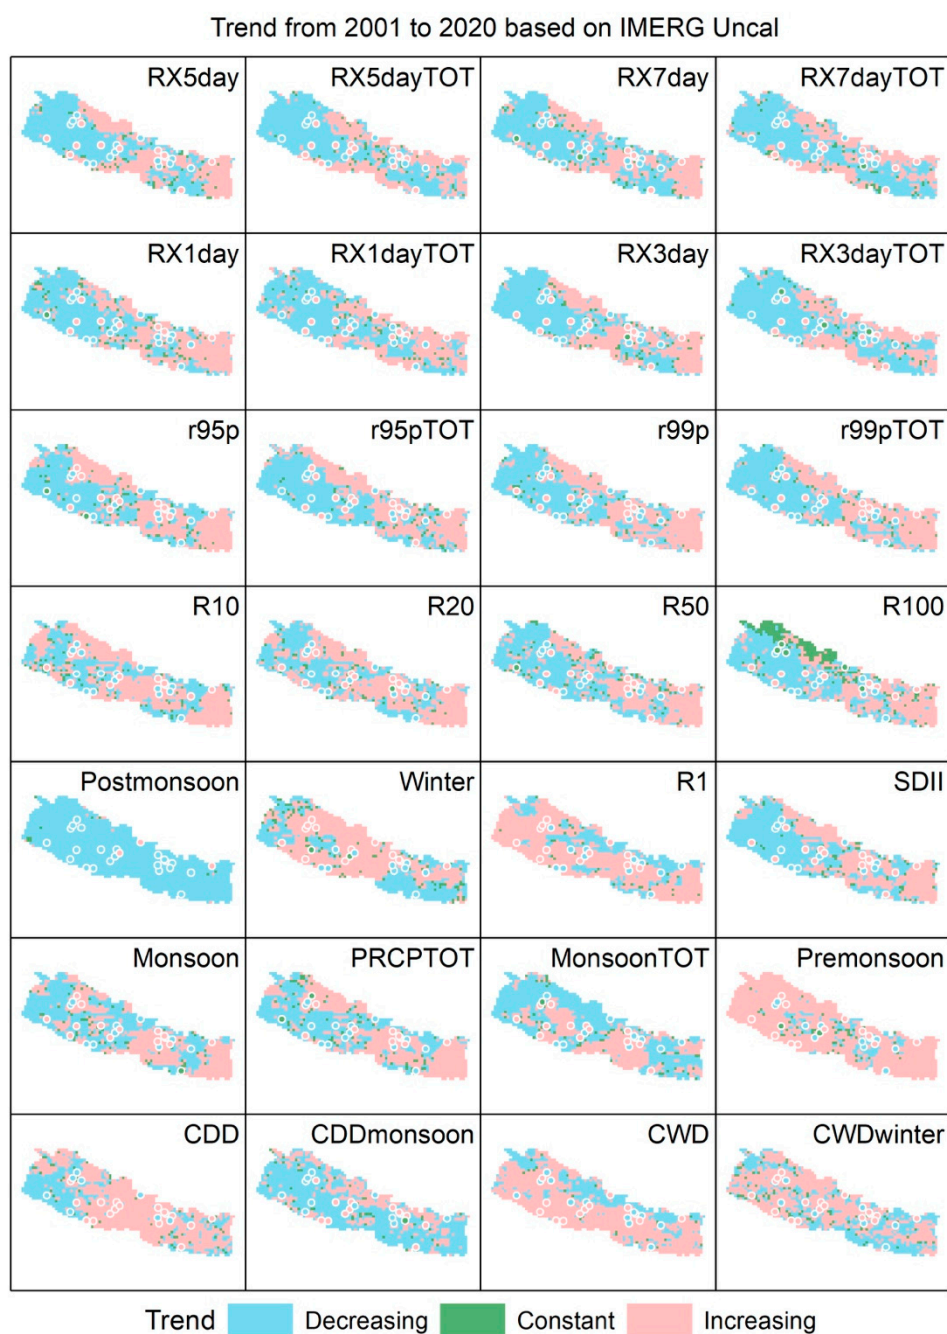

Figure S1. Spatial distribution of annual trend from 2001 to 2020 of selected 28 precipitation indices across Nepal based on IMERG_Uncal dataset. Refer to A Table A1 for the details of indices. The color code used for precipitation stations (points) and background (grids) represents the same.

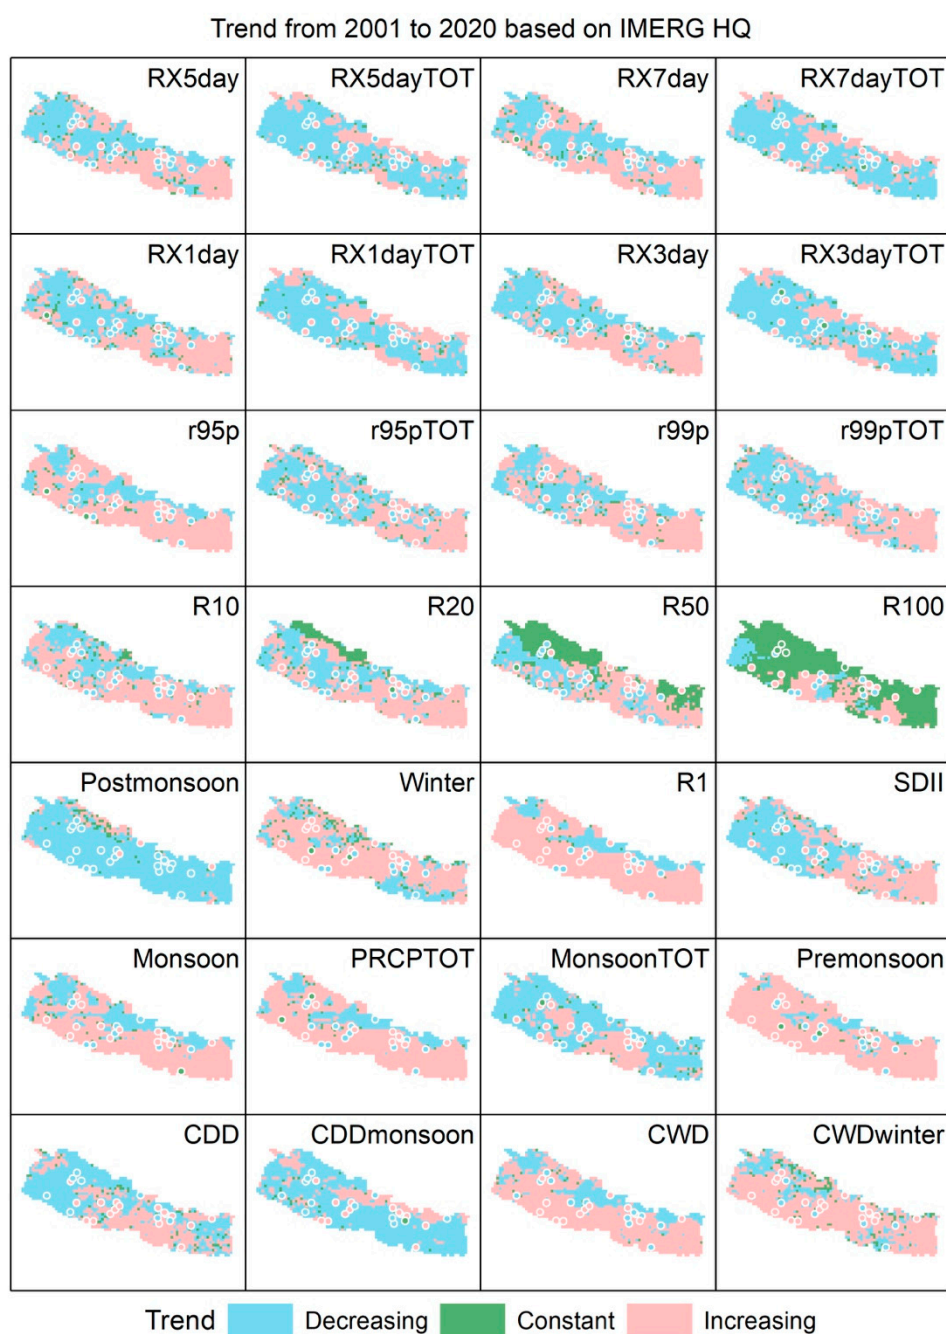

Figure S2. Spatial distribution of annual trend from 2001 to 2020 of selected 28 precipitation indices across Nepal based on IMERG_Uncal dataset. Refer to A Table A1 for the details of indices. The color code used for precipitation stations (points) and background (grids) represents the same.

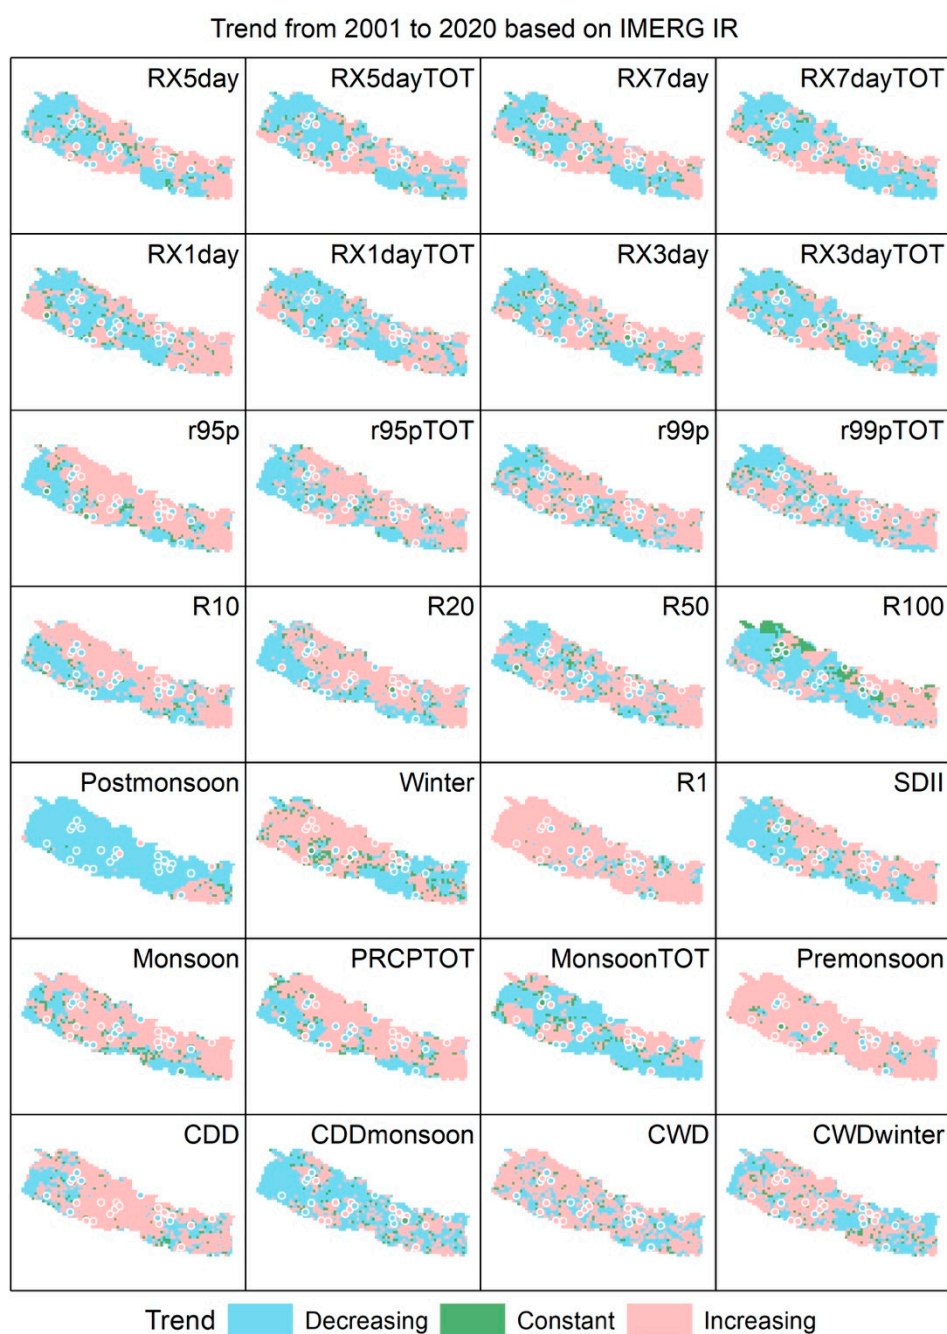

Figure S3. Spatial distribution of annual trend from 2001 to 2020 of selected 28 precipitation indices across Nepal based on IMERG_IR dataset. Refer to A Table A1 for the details of indices. The color code used for precipitation stations (points) and background (grids) represents the same.
