

Supplementary Figure S1

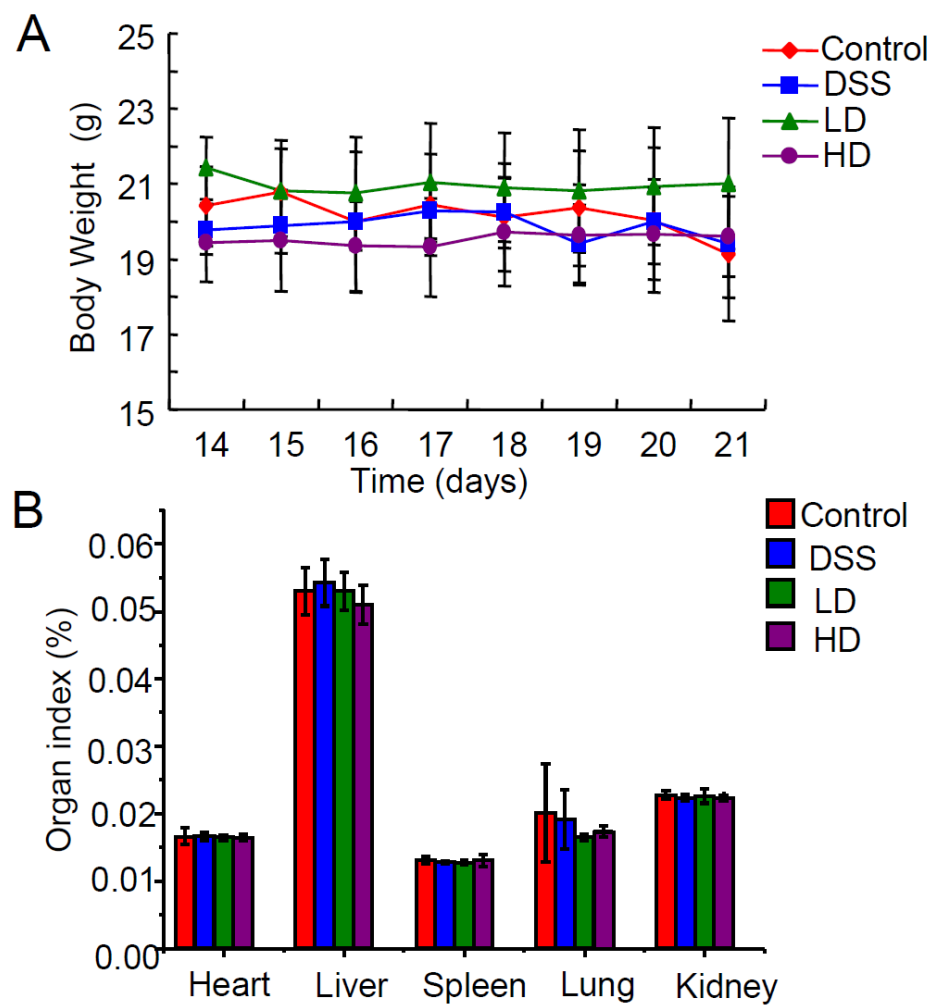

Figure S1 Effect of the CAPE-emulsion on the body weight (A) and organ indices (B) of DSS-induced colitis mice.

Supplementary Figure S2

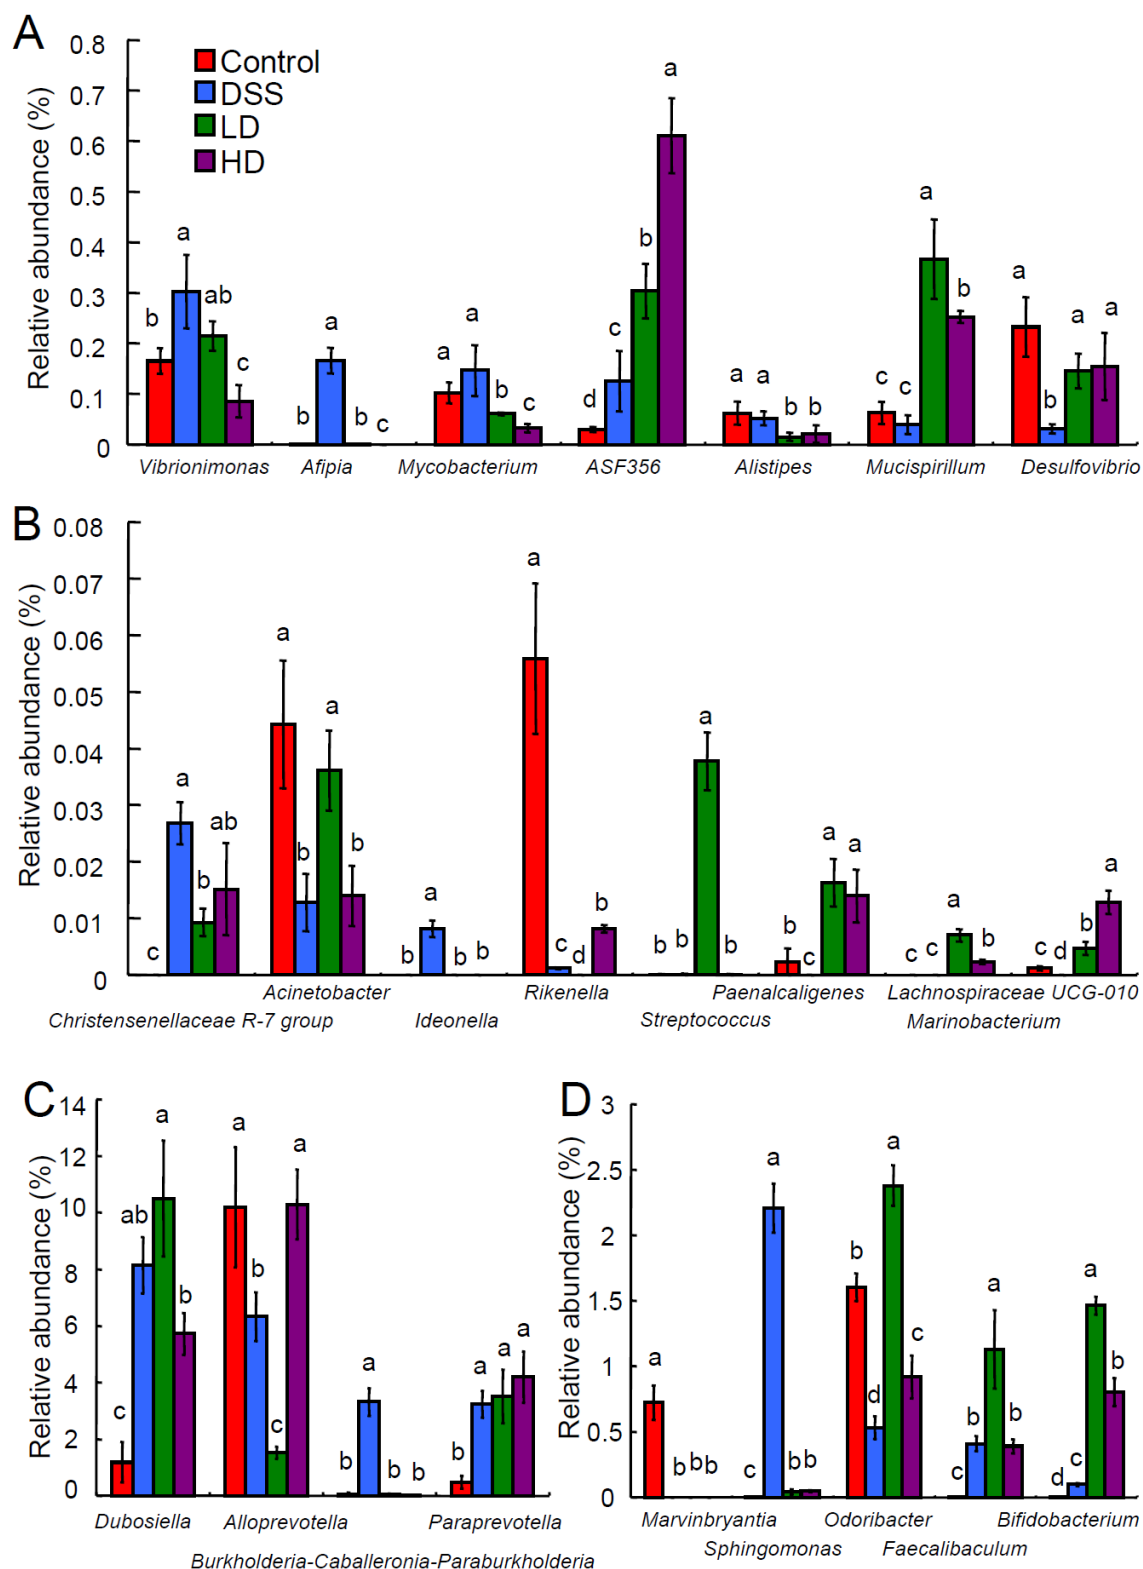

Figure S2 Effect of the CAPE-emulsion on the relative abundance of the biomarkers by LefSe analysis in DSS-induced colitis mice. The data are expressed as the mean \pm SEM with different letters in the same genus indicating significant differences ($P < 0.05$, $n = 3$).
