

Supplementary Materials: Biocontrol Potential of Antagonistic Yeasts on In Vitro and In Vivo *Aspergillus* Growth and Its AFB₁ Production

Dilara Nur Dikmetas, Hayrettin Özer and Funda Karbancıoglu-Guler

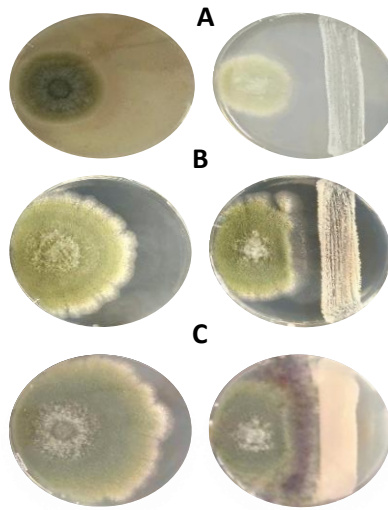

Figure S1. *In vitro* test of antagonism of a yeast isolate against *A. flavus* using the dual culture technique on PDA plates after 3 (**A**), 5 (**B**) and 7 (**C**) days of incubation with the control and DN-HS yeast interaction.
