

# Listeriolysin O Regulates the Expression of Optineurin, an Autophagy Adaptor that Inhibits the Growth of *Listeria monocytogenes*

Madhu Puri, Luigi La Pietra, Mobarak Abu Mraheil, Rudolf Lucas, Trinad Chakraborty and Helena Pillich

**Figure S1.** BX-795 has no effect on bacterial viability. *L. monocytogenes* wt was added to the cell culture media (without cells) containing 1  $\mu$ M BX-795. The bacteria were plated after 1 h.
