

Supplementary Figure 1.

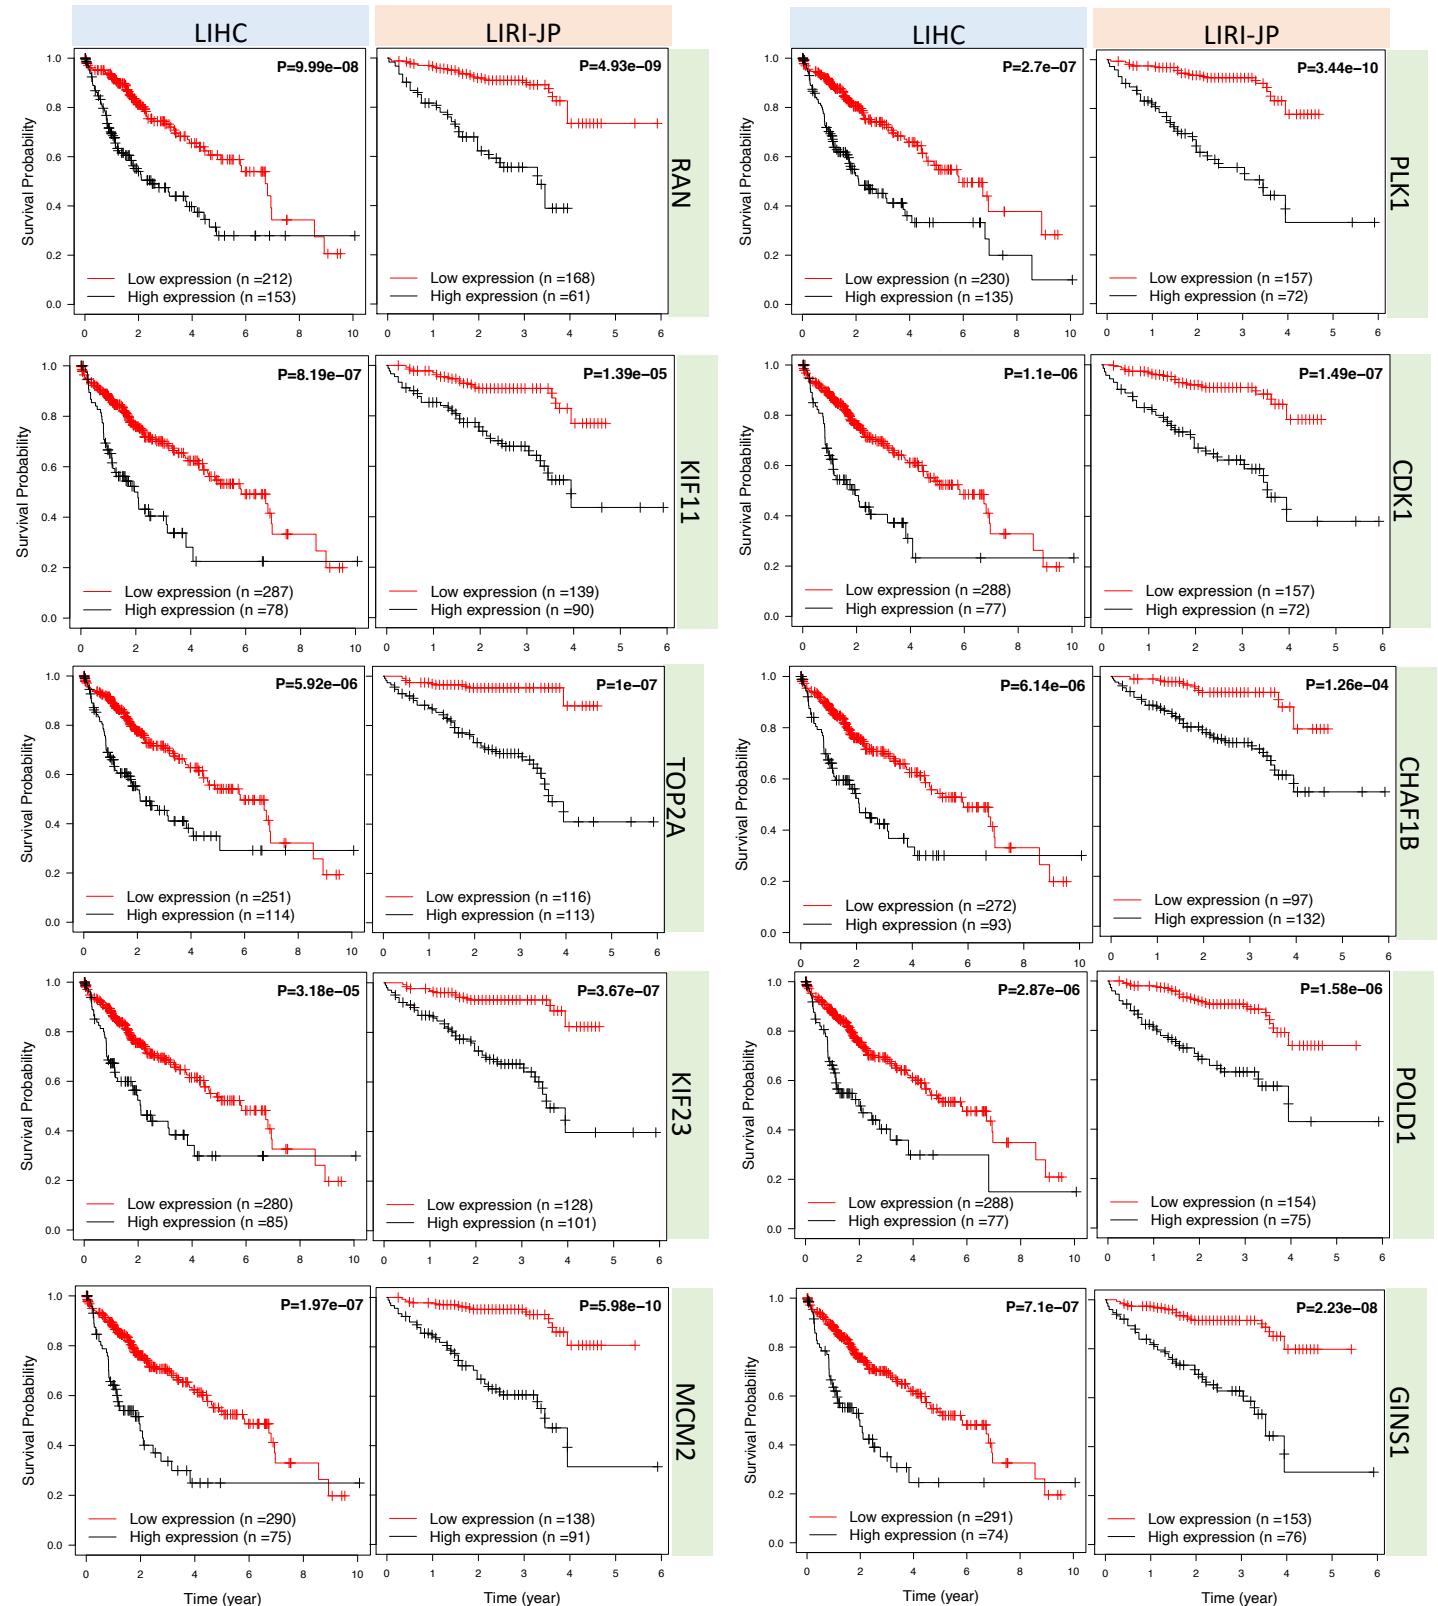

Correlation for Survival analysis

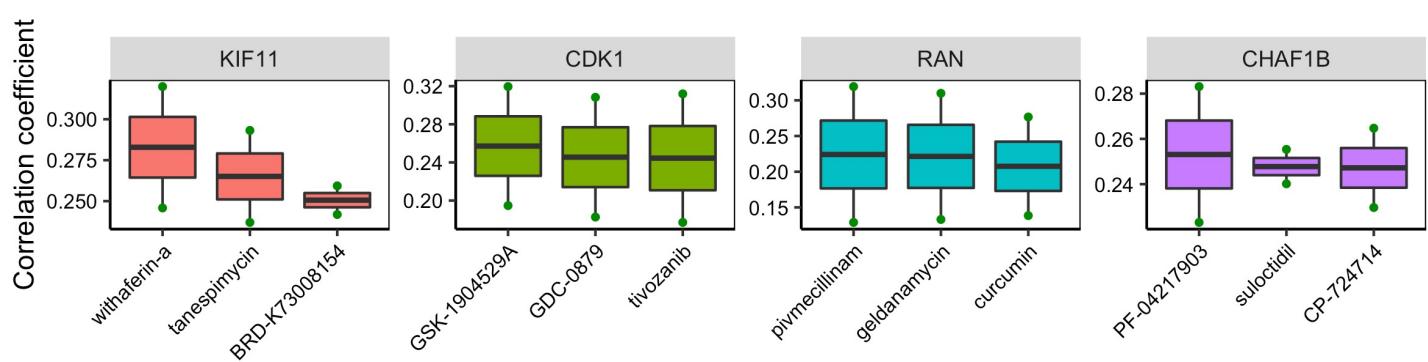

Topology correlation in two cohorts

Supplementary Figure 2. Kaplan Meier plots of target genes

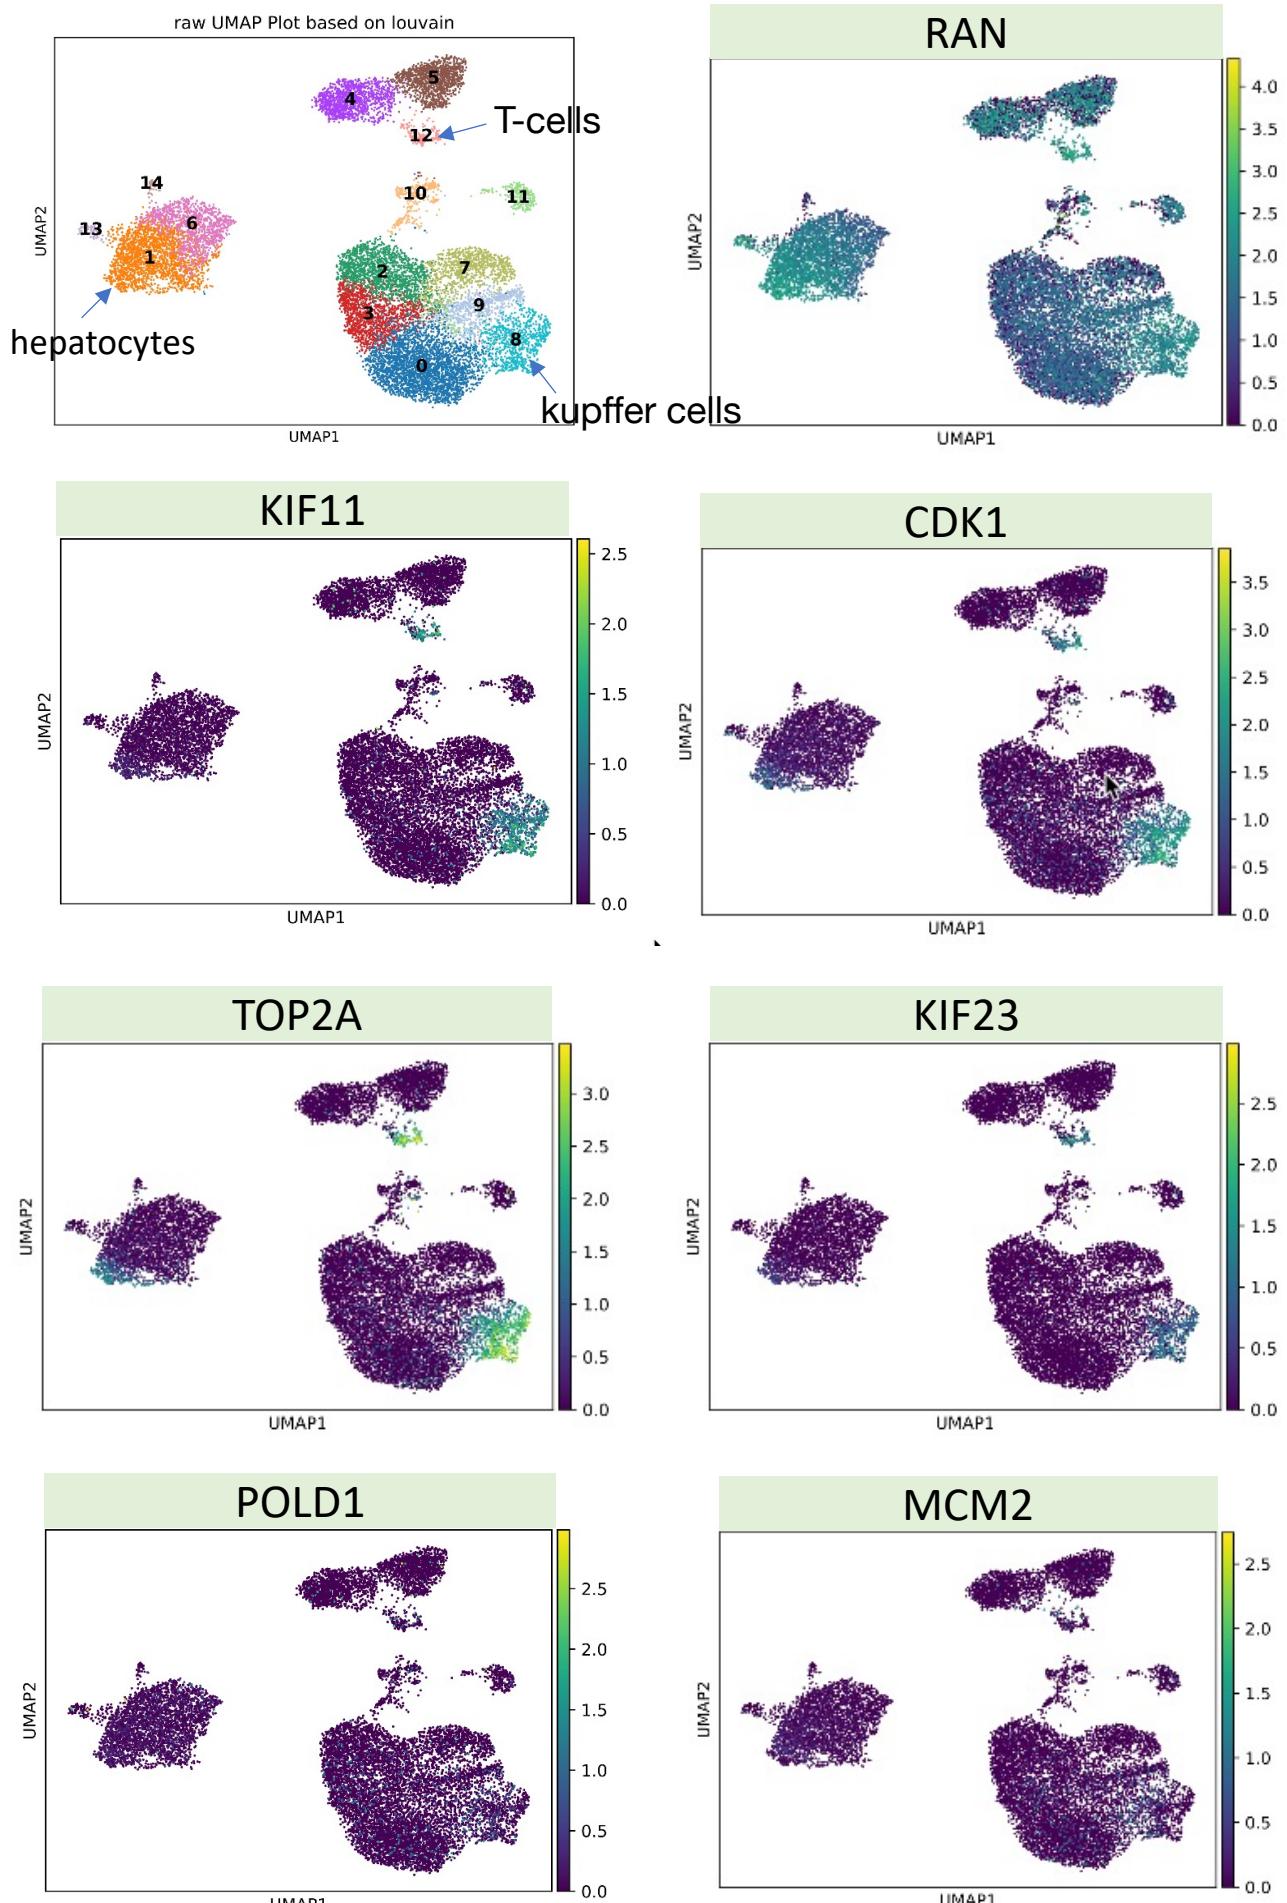

Supplementary Figure 3.

Top drug identification of *KIF11*, *CDK1*, *RAN*, *CHAF1B*.

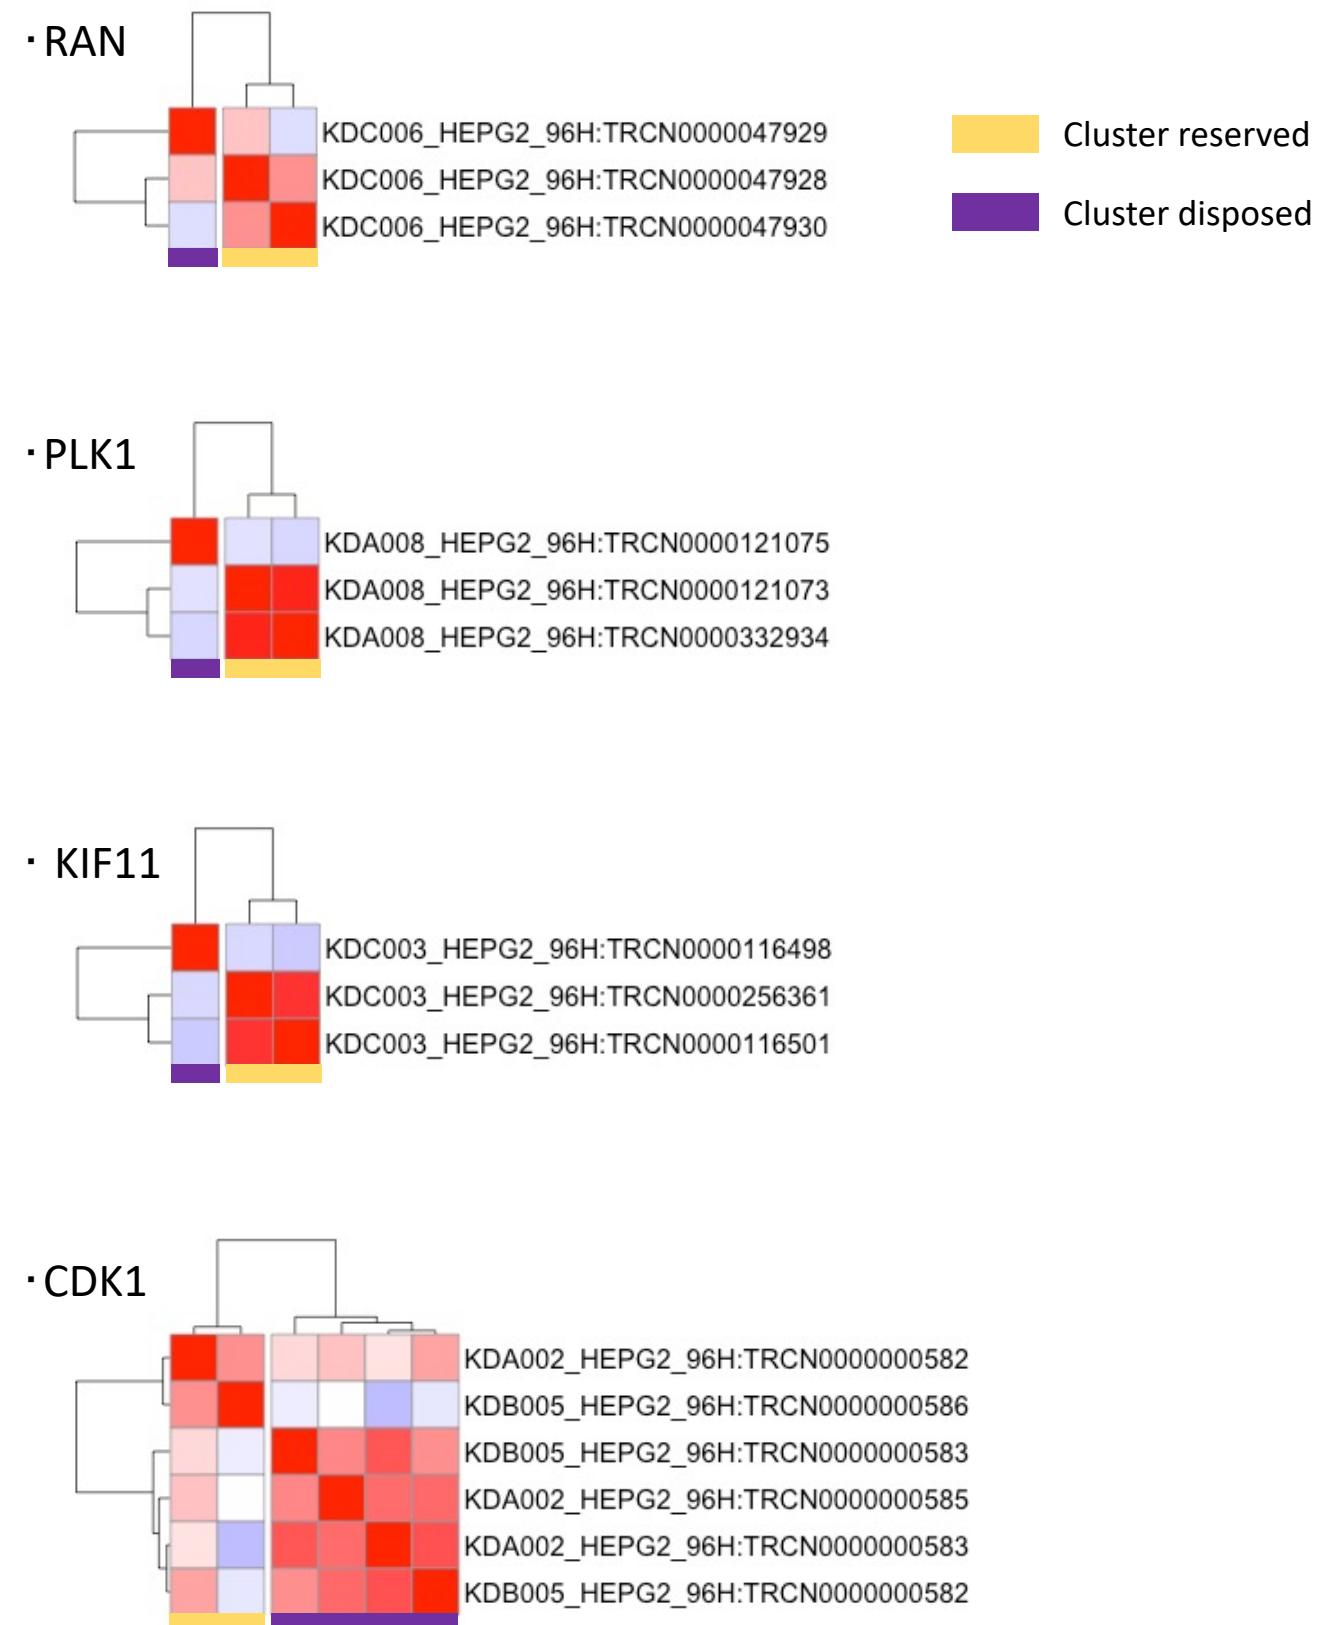

Supplementary Figure 4.

The expression pattern of potential target genes in different cell types

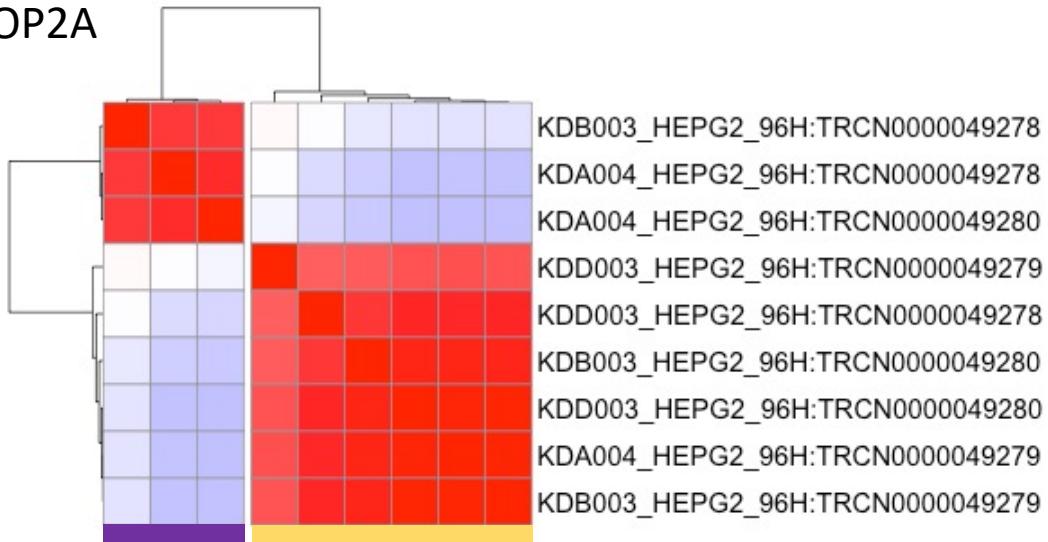

Supplementary Figure 5.

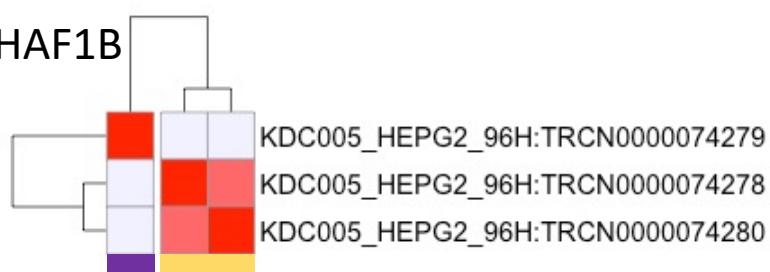

Clustering analysis of shRNAs for target genes

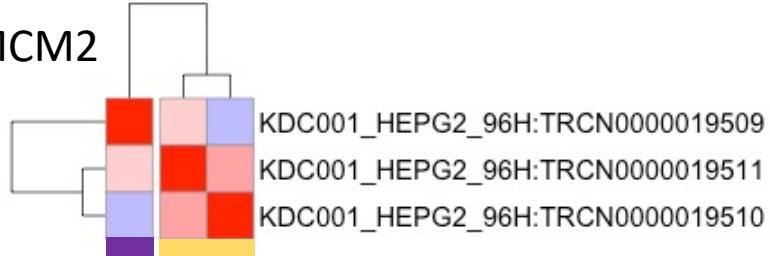

· TOP2A

· CHAF1B

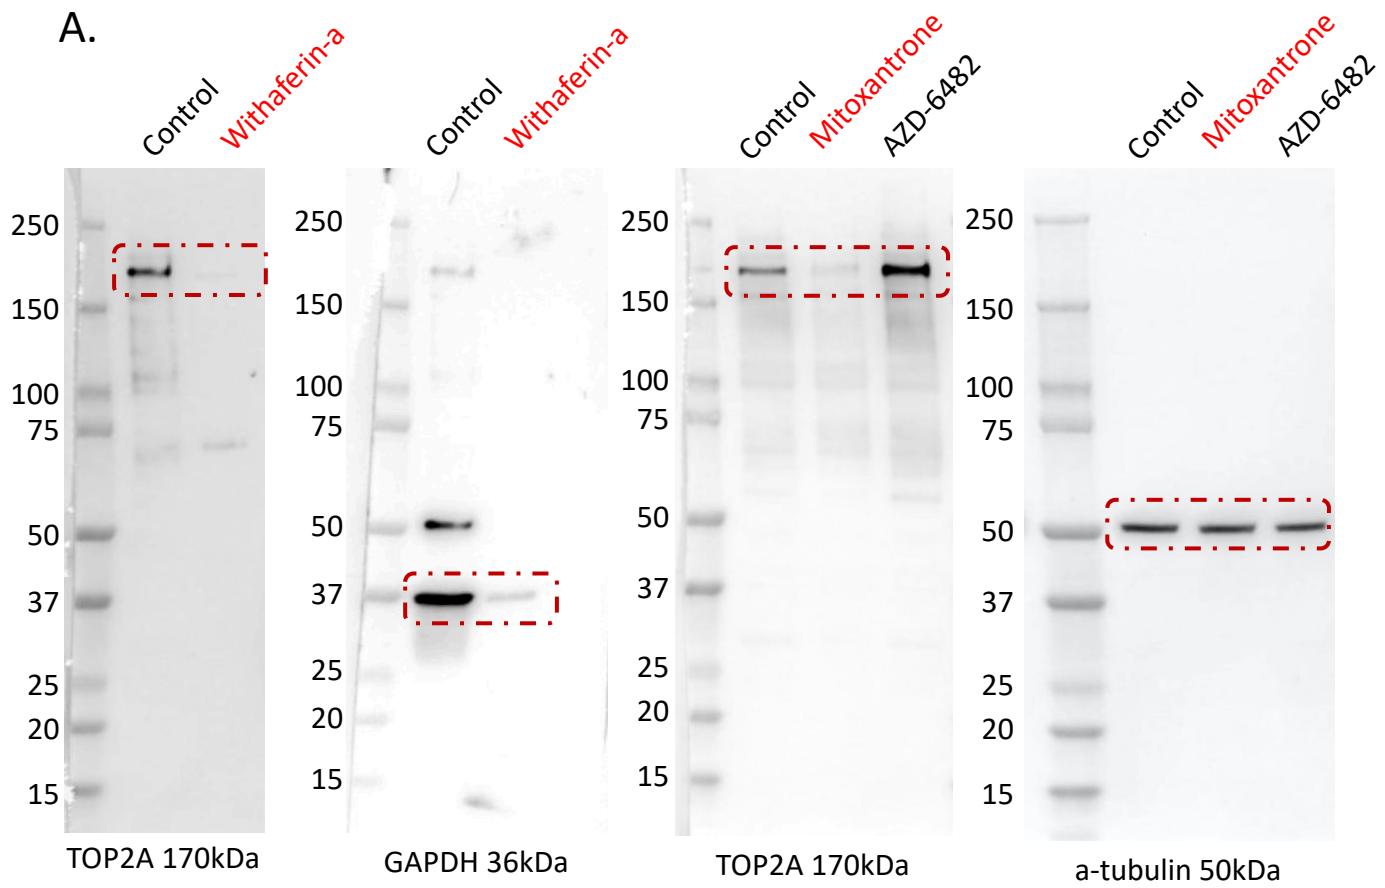

· MCM2

Supplementary Figure 6.

Protein expression levels in in-vitro model

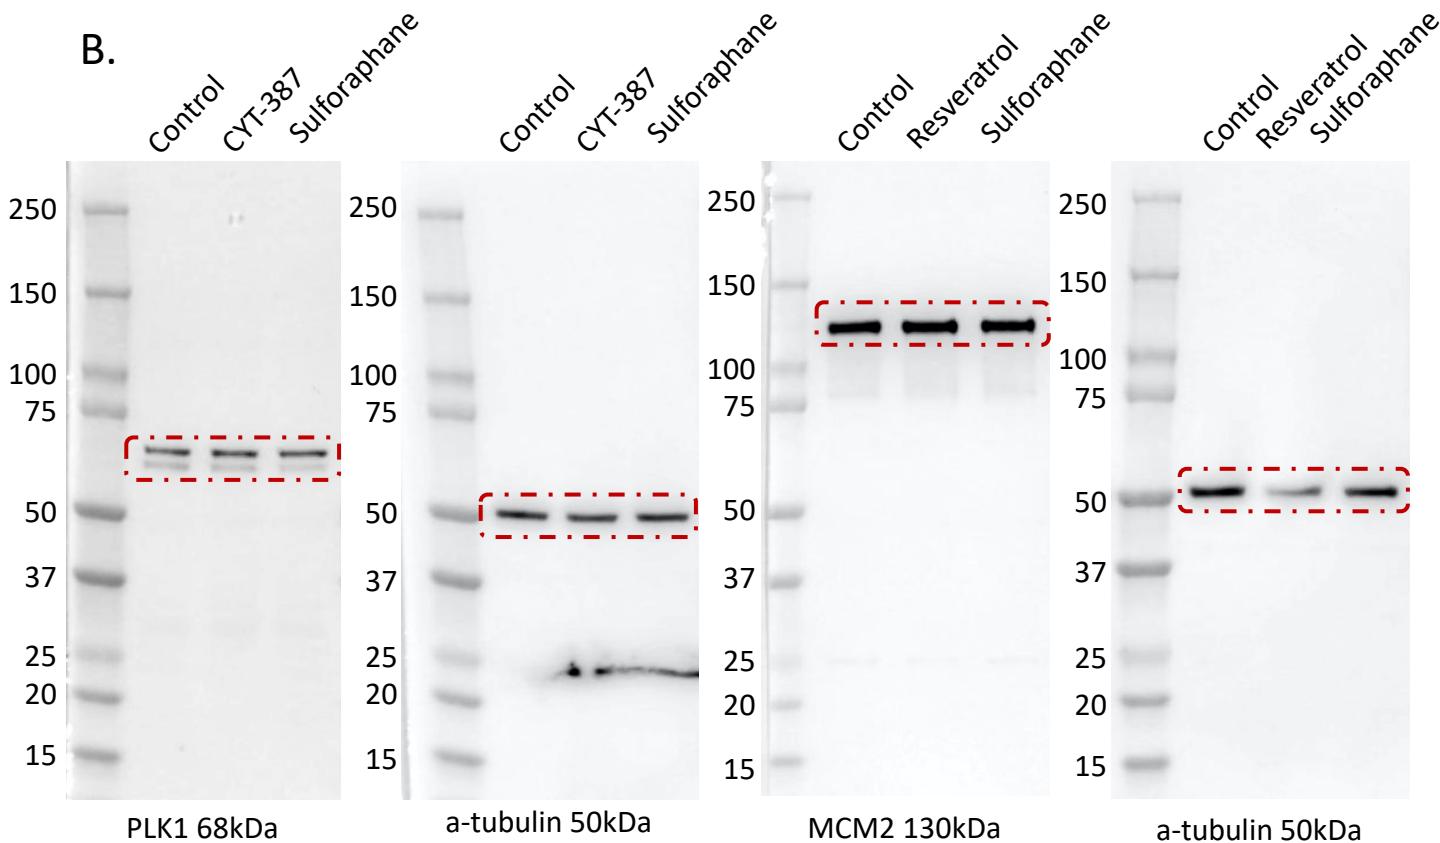

A.

TOP2A (GAPDH)	Intensity ratio
Control	1
Withaferin-a	0.32

TOP2A (A-tubulin)	Intensity ratio
Control	1
Mitoxantrone	0.43
AZD-6482	2.57

B.

PLK1	Intensity ratio
Control	1
CYT-387	1.21
Sulforaphane	0.98

MCM2	Intensity ratio
Control	1
Resveratrol	2.44
Sulforaphane	1.13
