	113	-	-	-	-	-	-	0,025
	125	-	0,025	-	-	0,167	-	-
	127	-	-	-	0,250	-	-	-
TGLA227	75	-	-	-	-	-	0,006	0,057
	85	-	-	-	-	-	-	0,008
	95	-	-	-	-	-	0,164	-

*Modern Holsteins were excluded from the analysis; studied historical populations: KH_H – Kholmogor breed, YR_H – Yaroslavl breed, GR_H – Great Russian cattle, NV_H – Novgorod cattle, HL_H – Holland cattle; modern populations: KH_M – Kholmogor breed, YR_M – Yaroslavl breed; emerged alleles are presented above the bold line; Lost alleles are presented below the bold line.
