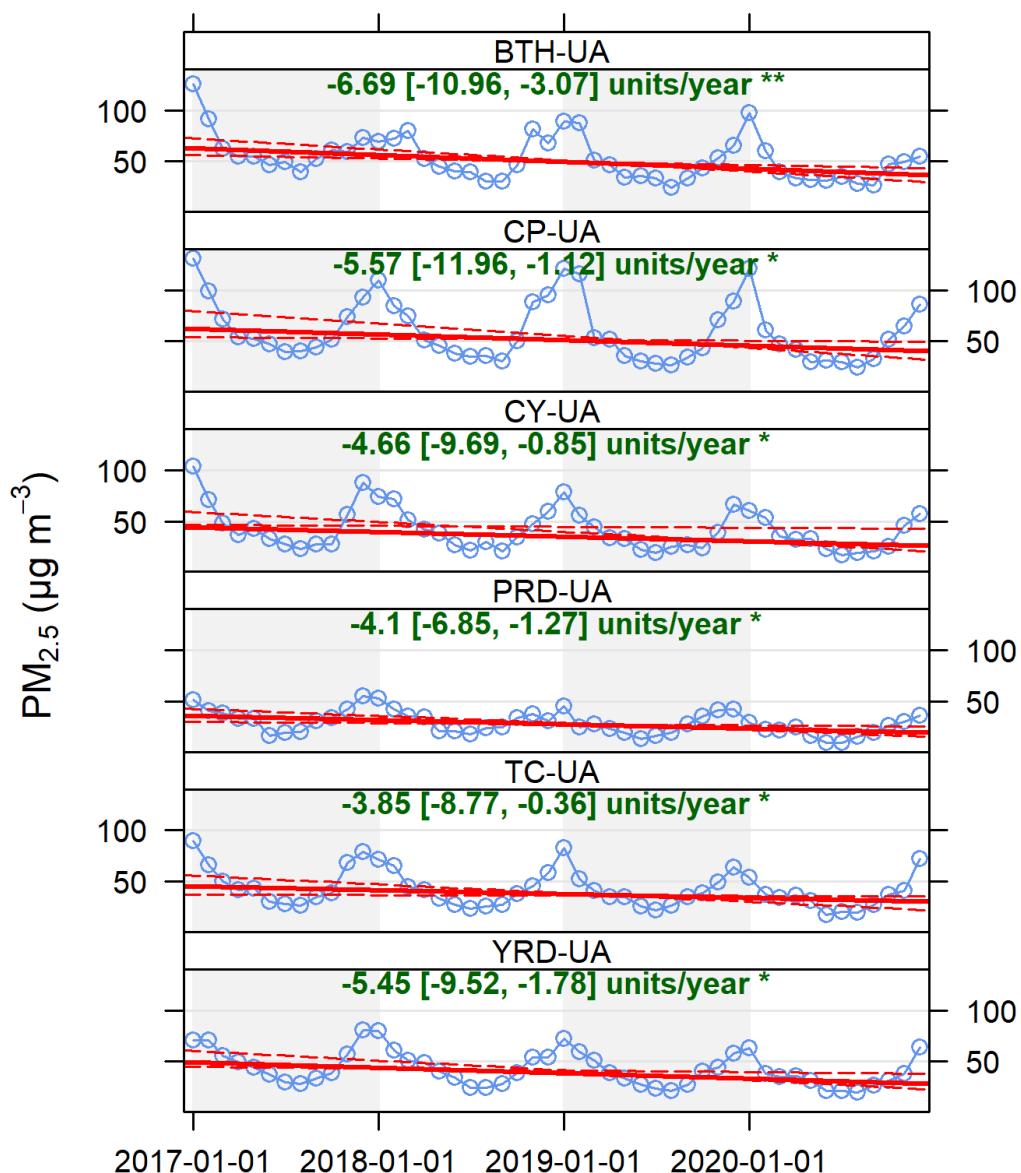

Figure S1. The variation trend of PM_{2.5} in six regions by using Theil-Sen estimates from 2017 to 2020. Beijing-Tianjin-Hebei urban agglomeration (BTH-UA), Central Plains urban agglomeration (CP-UA), Yangtze River Delta urban agglomeration (YRD-UA), Triangle of Central China urban agglomeration (TC-UA), Chengdu-Chongqing urban agglomeration (CY-UA), and Pearl River Delta urban agglomeration (PRD-UA).

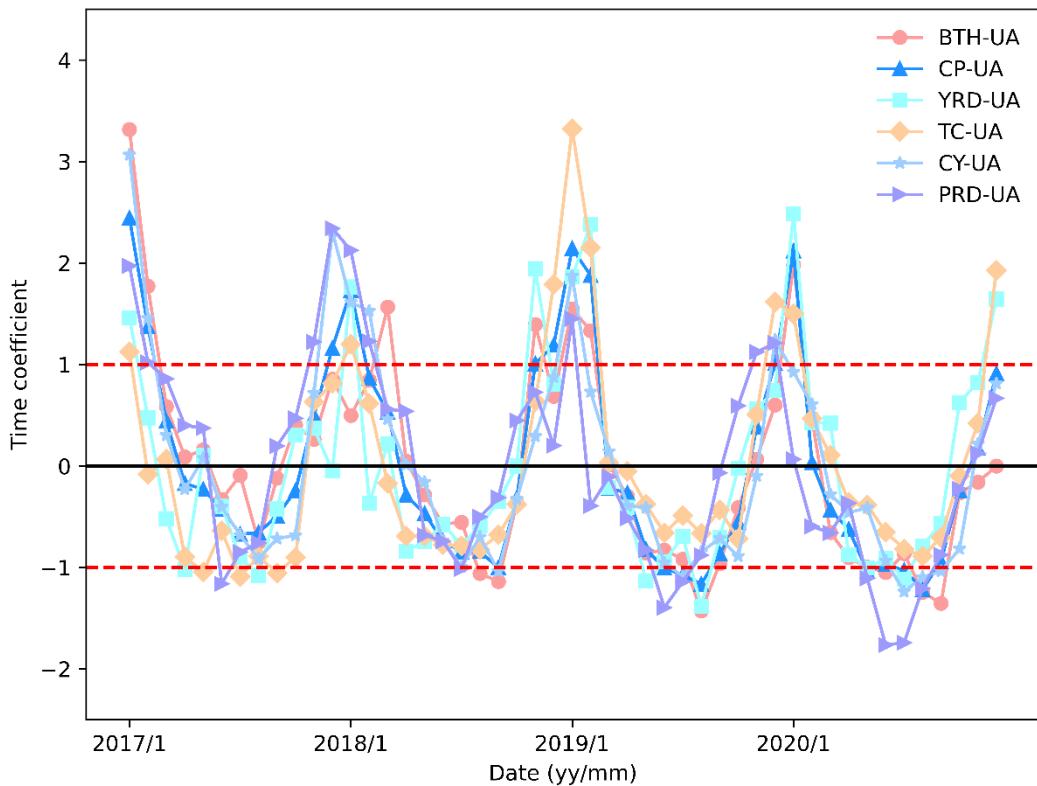

Figure S2. PM_{2.5} time coefficients decomposed by empirical orthogonal function in six urban agglomerations from 2017 to 2020.

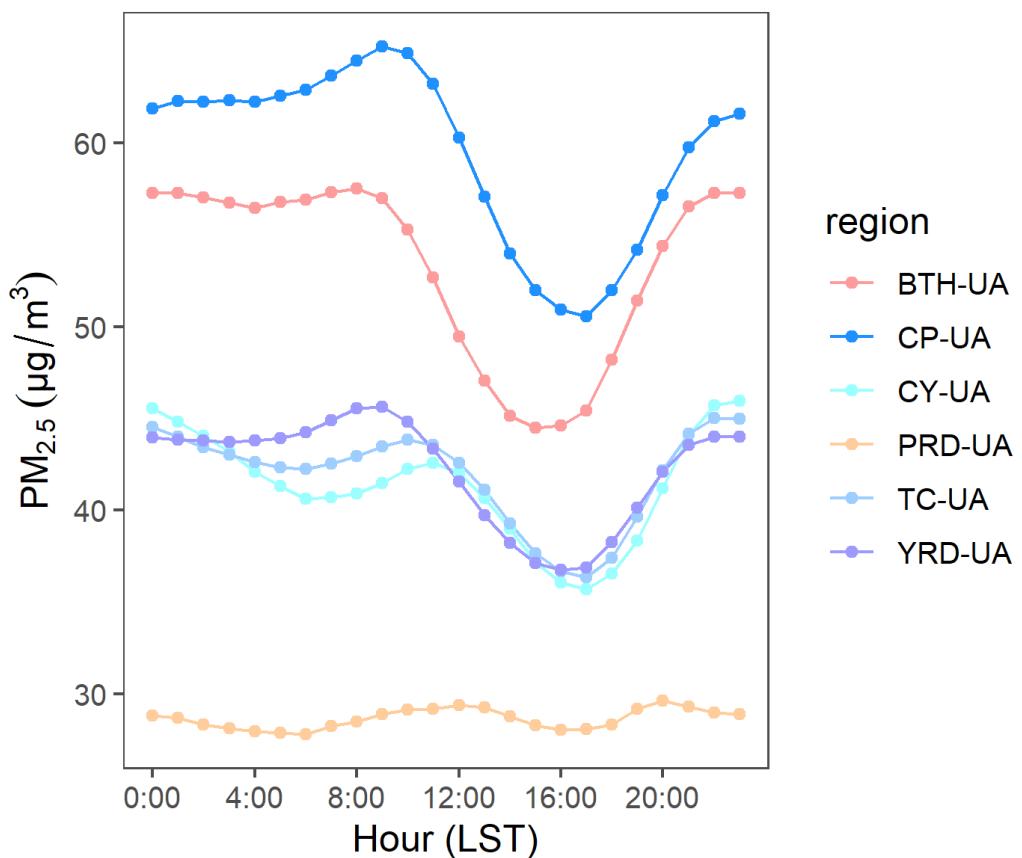

Figure S3. Diurnal variations of PM_{2.5} concentrations in six urban agglomerations from 2017 to 2020.

Table S1. Parameters of standard deviation ellipse of yearly mean concentrations of PM_{2.5} in six urban agglomerations from 2017 to 2020.
