

Positive cells (IHC-p30/CP204L)	Pig No.	Pig No.	Pig No.	Pig No.	Observations/notes
Lung (pulmonary lobe:)*					
-PIMs/Interstitial Mos					
-PAMs					
-BALT					
-Pneumocytes					
-Other cells/areas					
Lung (pulmonary lobe:)*					
-PIMs/Interstitial Mos					
-PAMs					
-BALT					
-Pneumocytes					
-Other cells/areas					

*The morphological identification of cells immunolabeled against viral antigen in each of the histological areas/structures evaluated must be also included.

(Mos): macrophages.

(PIM): pulmonary intravascular macrophages.

(PAM): pulmonary alveolar macrophages.

(BALT): bronchus-associated lymphoid tissue.

Scoring of cells immunolabeled for viral antigen: (0) no presence of immunolabeled cells; **(1)** occasional presence of immunolabeled cells; **(2)** mild presence of immunolabeled cells; **(3)** moderate presence of immunolabeled cells; **(4)** abundant presence of immunolabeled cells.

Positive cells (IHC-p30/CP204L)	Pig No.	Pig No.	Pig No.	Pig No.	Observations/notes
Distal ileum*					
-Epithelium					
-Lamina propria					
-Lymphoid follicles (LF)					
-Interfollicular areas					
-Other cells/areas					
Ileocaecal valve*					
-Epithelium					
-Lamina propria					
-Lymphoid follicles (LF)					
-Interfollicular areas					
-Other cells/areas					
Colon*					
-Epithelium					
-Lamina propia					
-Submucosa (occasional LF)					
-Other cells/areas					
Kidney*					
-Glomeruli (cortex)					
-Interstitial infiltrates (cortex)					
-Medulla					
-Renal pelvis					
-Other cells/areas					

*The morphological identification of cells immunolabeled against viral antigen in each of the histological areas/structures evaluated must be also included.

Scoring of cells immunolabeled for viral antigen: **(0)** no presence of immunolabeled cells; **(1)** occasional presence of immunolabeled cells; **(2)** mild presence of immunolabeled cells; **(3)** moderate presence of immunolabeled cells; **(4)** abundant presence of immunolabeled cells.

Positive cells (IHC-p30/CP204L)	Pig No.	Pig No.	Pig No.	Pig No.	Observations/notes
Spleen* -Red pulp					
-Lymphoid follicles					
-Periarteriolar lymphoid sheaths					
-Ellipsoids					
-Other cells/areas					
Thymus* -Cortex					
-Corticomedullary junction.					
-Medulla					
-Other cells/areas					
Tonsil* -Epithelium (crypts)/lamina. propria					
-Lymphoid follicles					
-Interfollicular areas					
-Other cells/areas					

*The morphological identification of cells immunolabeled against viral antigen in each of the histological areas/structures evaluated must be also included.

Scoring of cells immunolabeled for viral antigen: (0) no presence of immunolabeled cells; (1) occasional presence of immunolabeled cells; (2) mild presence of immunolabeled cells; (3) moderate presence of immunolabeled cells; (4) abundant presence of immunolabeled cells.
