

Dendrogramme of spectrale profils MS

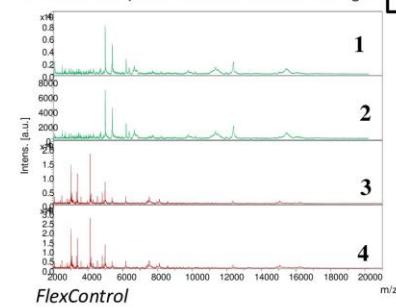

O. sonrai ticks preserved in alcohol and Silica gel

B

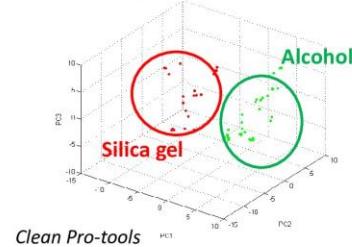

Representative MS profiles

O. sonrai ticks preserved in alcohol and Silica gel

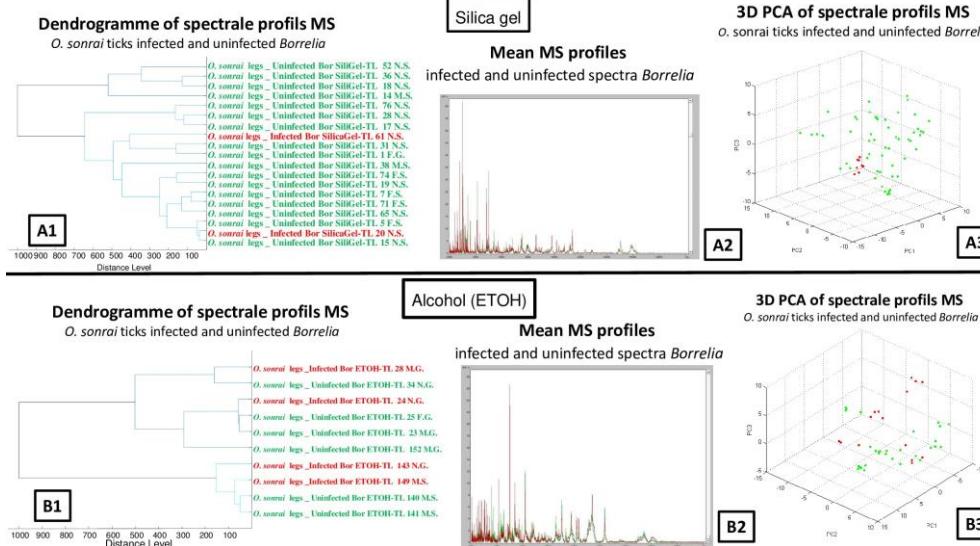

3D PCA of spectrale profils MS

O. sonrai ticks preserved in alcohol and Silica gel

C

Supplementary Figure S1. Comparison of MALDI-TOF MS spectra of *O. sonrai* ticks from the field preserved in silica gel (red) and alcohol (green); (A) Representation and comparison of MS profiles using FlexControl 3.3 software. (B) Dendrogram representation of variability between MS profiles using MALDI Biyper software, version 3.0; (C) PCA of MS profiles using ClinProTools 2.2 software. a.uu = arbitrary units; m/z = mass to charge ratio; TL= TissueLyser.

Supplementary Figure S2. Comparison of MALDI-TOF MS spectra of Borrelia-infected (red) and uninfected (green) *O. sonrai* ticks from the field preserved in silica gel (A1-3) and alcohol (B1-3). Dendrogram representation of the variability between MS profiles preserved in silica gel (A1) and alcohol (B1) using MALDI Biyper software, version 3.0. Representation and comparison of the average MS profile preserved in silica gel (A2) and alcohol (B2) using ClinProTools 2.2 software. PCA of the MS spectra preserved in silica gel (A3) and alcohol (B3) using ClinProTools 2.2 software. a.uu = arbitrary units; m/z = mass/charge ratio; TL= TissueLyser, N=nymph; M=male; F=female; S=not-engorged, G=blood-engorged.

Supplementary Table S1. Intra and peri-residential prospection of rodent burrows in the Niakhar area.

Villages included	Geographical coordinates	Households investigated	Households positive (%)	Burrows surveyed	Burrows positive (%)	Specimen collected
Diané Bérédji	14°34' N / 16°18' W	9	5 (56%)	30	9 (30%)	33
Ndiambour	14°33' N / 16°20' W	10	6 (60%)	30	12 (40%)	41
Dione Thiogome	14°35' N / 16°21' W	11	4 (36%)	30	10 (33%)	24
Mbakane Néném	14°33' N / 16°23' W	6	3 (50%)	30	11 (36%)	34
Patar	14°33' N / 16°22' W	9	6 (66%)	30	17 (56%)	48
Wakhaldiam	14°33' N / 16°24' W	10	5 (50%)	30	9 (30%)	28
Ngayokheme	14°32' N / 16°26' W	34	15 (44%)	75	31 (41%)	121
Ndioulbeth	14°31' N / 16°22' W	11	4 (36%)	30	10 (33%)	49
Mbadatte	14°32' N / 16°21' W	8	5 (63%)	30	11 (36%)	38
Mback	14°33' N / 16°20' W	11	4 (36%)	30	5 (16%)	11
