1.1. Supplementary Figures

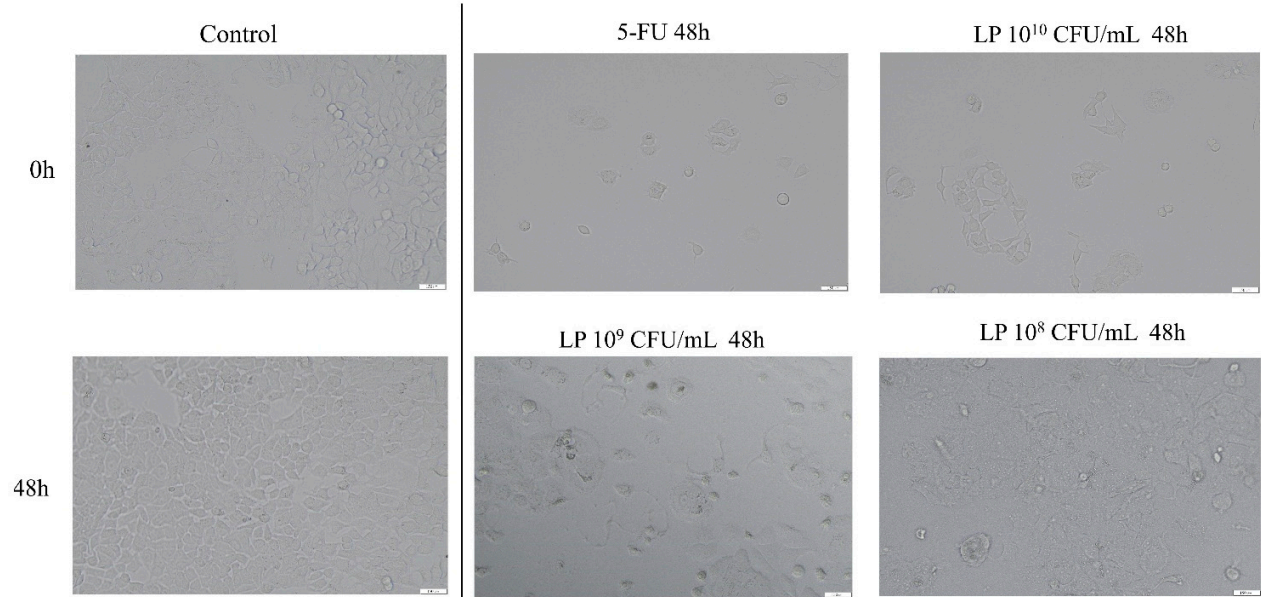

Supplementary Figure S1. The evaluation of morphological changes of HaCaT cells after 48 h treatment with 10⁸, 10⁹, 10¹⁰ CFU/ml LP and 10 μ M 5-FU; the scale bar was 150 μ m.

A375

Supplementary Figure S2. The evaluation of morphological changes of A375 cells after 48 h treatment with 10⁸, 10⁹, 10¹⁰ CFU/ml LP and 10 μ M 5-FU; the scale bar was 150 μ m.

MCF-7

Supplementary Figure S3. The evaluation of morphological changes of MCF-7 cells after 48 h treatment with 10⁸, 10⁹, 10¹⁰ CFU/ml LP and 10 μ M 5-FU; the scale bar was 150 μ m.
