

## **Supplementary Information**

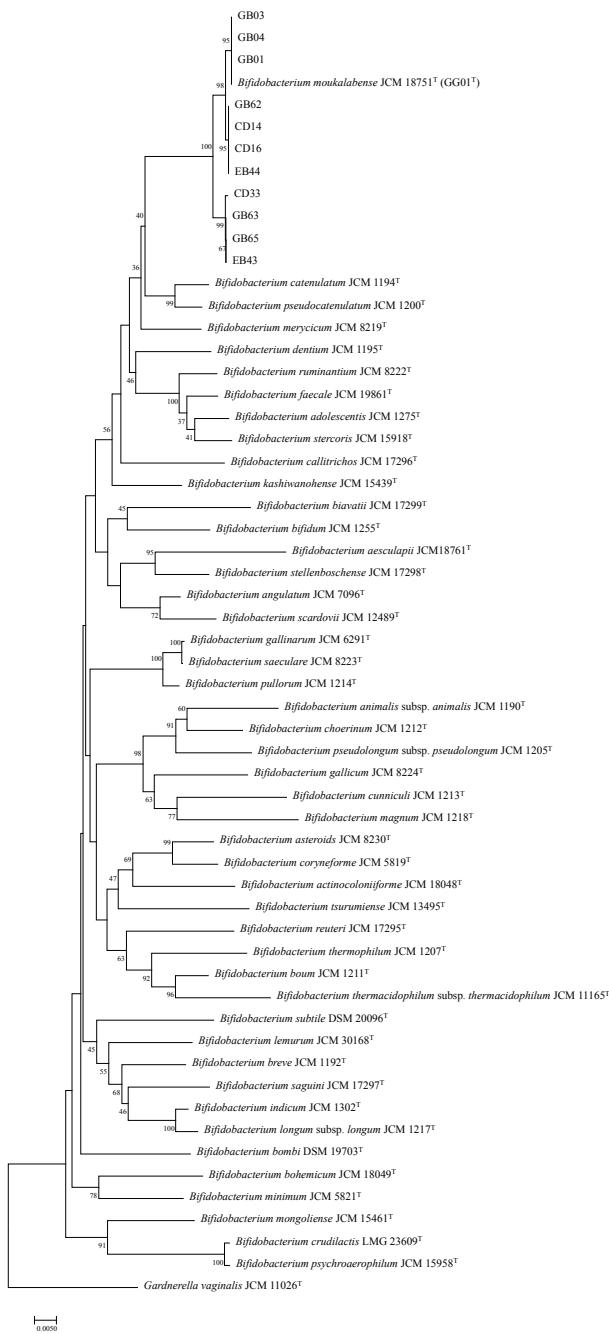

**Genomic analyses of *Bifidobacterium moukalabense* reveal adaptations to frugivore/folivore feeding behavior**

**Takahiro Segawa, Satoshi Fukuchi, Dylan Bodington, Sayaka Tsutida, Pierre Philippe Mbehang Nguema, Hishiro Mori, Kazunari Ushida**

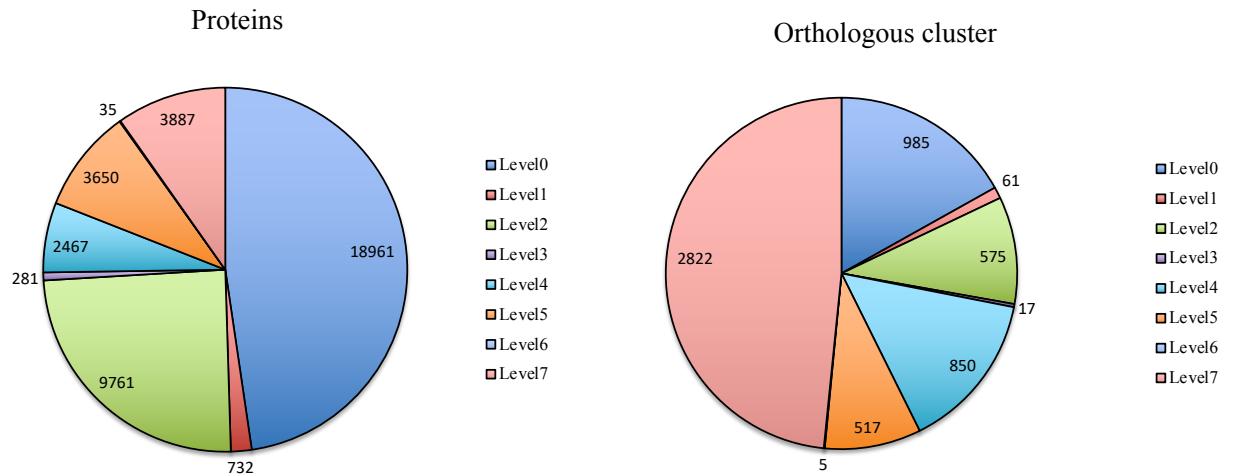

**This PDF file includes:**

**Supplementary Figures 1-5**

**Supplementary Tables 1-10**

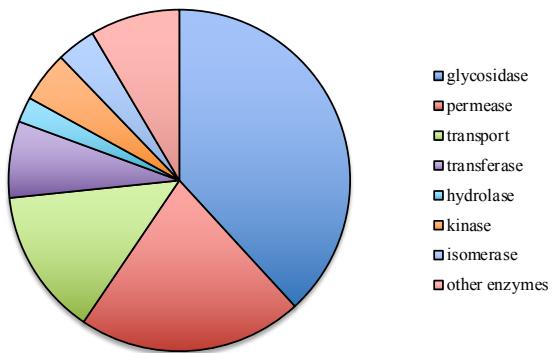

**Supplementary Figure 1: Neighbor joining phylogenetic tree of *Bifidobacterium* spp. based on 16S rRNA gene sequence.** Tree was constructed with 1000 bootstrap replication using MEGA version 5. The sequences were retrieved from DDBJ/GenBank/EMBL. Bar represents 0.02 substitution per nucleotide position.

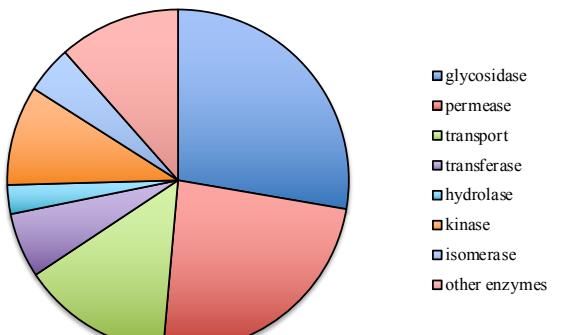

**Supplementary Figure 2: Frequency of the conservation levels of proteins and orthologous clusters.**

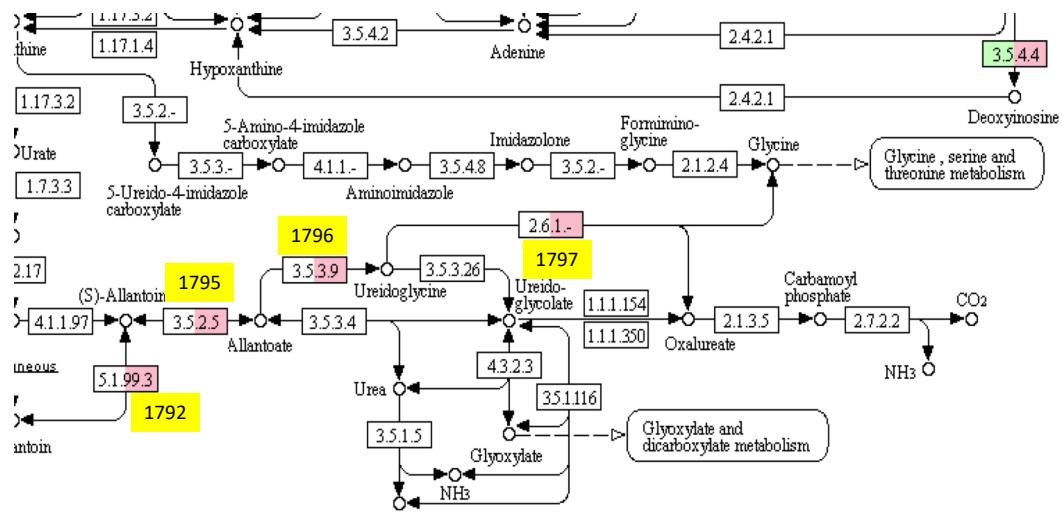

G proteins of level 2

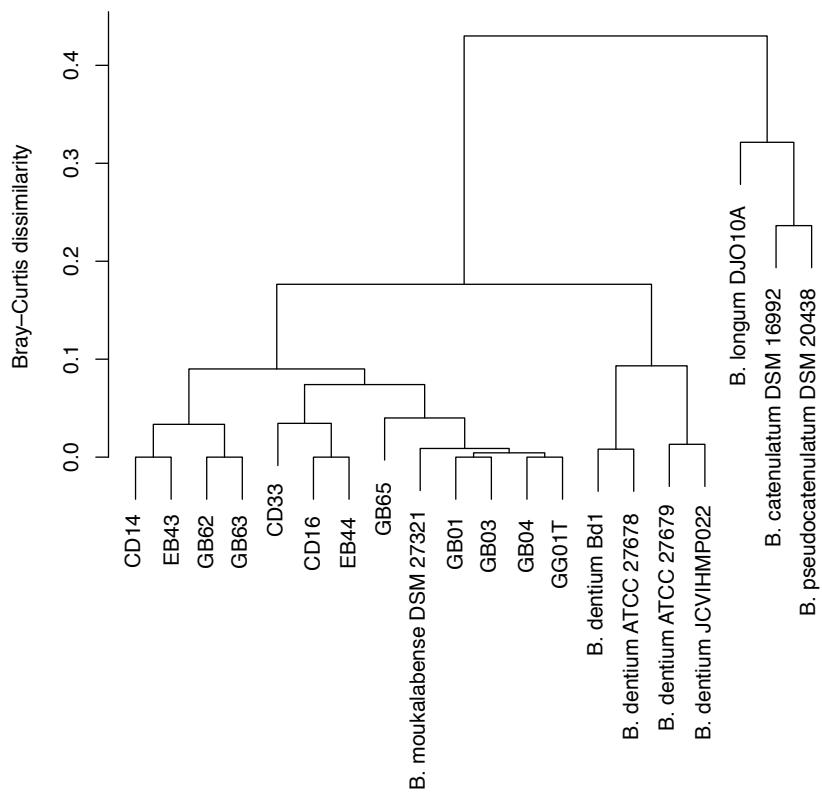

All of the G proteins

**Supplementary Figure 3: Frequency of the carbohydrate metabolism and transport (category G) proteins.**

Supplementary Figure 4: Allantoin metabolism pathway in the KEGG map.

**Supplementary Figure 5: Bray-Curtis dissimilarity based on the Carbohydrate Active Enzymes (CAZy) system.**

**Supplementary Table 1: Genome statistics of *Bifidobacterium moukalabense* in this study.**

| 1856                | COG3507 | Beta-xylosidase  |

**Supplementary Table 6: The list of level 1 ortholog clusters with the COG annotation.**

| ortholog cluster ID | COG ID  | COG category | COG description  |
|---------------------|---------|--------------|--|
| 32                  | COG1254 | C            | Acylphosphatase  |
| 51                  | COG2207 | K            | AraC-type DNA-binding domain and AraC-containing proteins  |
| 51                  | COG1917 | R            | Cupin domain protein related to quercetin dioxygenase  |
| 129                 | COG4292 | S            | Low temperature requirement protein LtrA (function unknown)  |
| 131                 | COG1174 | E            | ABC-type proline/glycine betaine transport system, permease component  |
| 131                 | COG1732 | M            | Periplasmic glycine betaine/choline-binding (lipo)protein of an ABC-type transport system (osmoprotectant binding protein) |
| 132                 | COG1125 | E            | ABC-type proline/glycine betaine transport system, ATPase component  |
| 133                 | COG0604 | CR           | NADPH:quinone reductase or related Zn-dependent oxidoreductase   |
| 136                 | COG3548 | S            | Uncharacterized membrane protein   |
| 137                 | COG1154 | HI           | Deoxyxylulose-5-phosphate synthase   |
| 138                 | COG0667 | R            | Predicted oxidoreductase (related to aryl-alcohol dehydrogenase)   |
| 139                 | COG0300 | R            | Short-chain dehydrogenase  |
| 273                 | COG1132 | V            | ABC-type multidrug transport system, ATPase and permease component   |
| 274                 | COG1132 | V            | ABC-type multidrug transport system, ATPase and permease component   |
| 284                 | COG1846 | K            | DNA-binding transcriptional regulator, MarR family   |
| 285                 | COG1131 | V            | ABC-type multidrug transport system, ATPase component  |
| 286                 | COG0842 | V            | ABC-type multidrug transport system, permease component  |
| 474                 | COG1972 | F            | Nucleoside permease NupC   |
| 475                 | COG0213 | F            | Thymidine phosphorylase  |
| 477                 | COG1015 | G            | Phosphopentomutase   |
| 478                 | COG0274 | F            | Deoxyribose-phosphate aldolase   |
| 886                 | COG3764 | M            | Sortase (surface protein transpeptidase)   |
| 888                 | COG4932 | S            | Uncharacterized surface anchored protein   |
| 889                 | COG3764 | M            | Sortase (surface protein transpeptidase)   |
| 925                 | COG2814 | G            | Predicted arabinose efflux permease, MFS family  |
| 928                 | COG2211 | G            | Na+/melibiose symporter or related transporter   |
| 929                 | COG3408 | G            | Glycogen debranching enzyme (alpha-1,6-glucosidase)  |
| 1074                | COG2110 | J            | O-acetyl-ADP-ribose deacetylase (regulator of RNase III), contains Macro domain  |
| 1075                | COG0846 | O            | NAD-dependent protein deacetylase, SIR2 family   |
| 1086                | COG2814 | G            | Predicted arabinose efflux permease, MFS family  |
| 1124                | COG2268 | S            | Uncharacterized membrane protein YqiK, contains Band7/PHB/SPFH domain  |
| 1218                | COG0457 | R            | Tetratricopeptide (TPR) repeat   |
| 1464                | COG1533 | L            | DNA repair photolyase  |
| 1465                | COG0778 | C            | Nitroreductase   |
| 1466                | COG1846 | K            | DNA-binding transcriptional regulator, MarR family   |
| 1467                | COG4886 | K            | Leucine-rich repeat (LRR) protein  |
| 1720                | COG0222 | J            | Ribosomal protein L7/L12   |
| 1792                | COG4126 | E            | Asp/Glu/hydantoin racemase   |
| 1793                | COG1953 | FH           | Cytosine/uracil/thiamine/allantoin permease  |
| 1795                | COG0044 | F            | Dihydroorotate or related cyclic amidohydrolase  |
| 1796                | COG0624 | E            | Acetylornithine deacetylase/Succinyl-diaminopimelate desuccinylase or related deacylase                                    |
| 1797                | COG0075 | EF           | Archaeal aspartate aminotransferase or a related aminotransferase, includes purine catabolism protein PucG                 |
| 1798                | COG1737 | K            | DNA-binding transcriptional regulator, MurR/RpiR family, contains HTH and SIS domains                                      |
| 1818                | COG0531 | E            | Amino acid transporter   |
| 2055                | COG4367 | S            | Uncharacterized protein  |
| 2060                | COG2977 | Q            | 4'-phosphopantetheinyl transferase EntD (siderophore biosynthesis)   |
| 2063                | COG3321 | Q            | Acyl transferase domain in polyketide synthase (PKS) enzymes   |
| 2066                | COG3560 | R            | Fatty acid repression mutant protein (predicted oxidoreductase)  |

**Supplementary Table 7: The list of level 2 ortholog clusters with the COG annotation.**

| ortholog cluster ID | COG ID  | COG category | COG description   |
|---------------------|---------|--------------|---|
| 2                   | COG0281 | C            | Malic enzyme  |
| 9                   | COG2755 | E            | Lysophospholipase L1 or related esterase  |
| 17                  | COG2071 | E            | Gamma-glutamyl-gamma-aminobutyrate hydrolase PuuD (putrescine degradation), contains GATase1-like domain    |
| 27                  | COG1357 | S            | Uncharacterized protein YjbI, contains pentapeptide repeats   |
| 52                  | COG1280 | E            | Threonine/homoserine/homoserine lactone efflux protein  |
| 53                  | COG0531 | E            | Amino acid transporter  |
| 53                  | COG1454 | C            | Alcohol dehydrogenase, class IV   |
| 54                  | COG1102 | F            | Cytidylate kinase   |
| 55                  | COG4992 | E            | Acetylornithine/succinyl diaminopimelate/putrescine aminotransferase  |
| 56                  | COG2508 | K            | DNA-binding transcriptional regulator, PucR family  |
| 60                  | COG0667 | R            | Predicted oxidoreductase (related to aryl-alcohol dehydrogenase)  |
| 61                  | COG0534 | V            | Na+-driven multidrug efflux pump  |
| 62                  | COG1609 | K            | DNA-binding transcriptional regulator, LacI/PurR family   |
| 63                  | COG1501 | G            | Alpha-glucosidase, glycosyl hydrolase family GH31   |
| 85                  | COG0366 | G            | Glycosidase   |
| 85                  | COG1523 | G            | Pullulanase/glycogen debranching enzyme   |
| 85                  | COG3266 | D            | Cell division protein DamX, binds to the septal ring, contains C-terminal SPOR domain                       |
| 140                 | COG0582 | LX           | Integrase   |
| 172                 | COG0494 | V            | 8-oxo-dGTP pyrophosphatase MutT and related house-cleaning NTP pyrophosphohydrolases, NUDIX family          |
| 187                 | COG1040 | R            | Predicted amidophosphoribosyltransferases   |
| 194                 | COG1316 | M            | Anionic cell wall polymer biosynthesis enzyme, LytR-Cps2A-Psr (LCP) family                                  |
| 271                 | COG2879 | S            | Uncharacterized short protein YbdD, DUF466 family   |
| 272                 | COG1966 | T            | Carbon starvation protein CstA  |
| 278                 | COG0656 | Q            | Aldo/keto reductase, related to diketogulonate reductase  |
| 279                 | COG0110 | R            | Acetyltransferase (isoleucine patch superfamily)  |
| 280                 | COG0583 | K            | DNA-binding transcriptional regulator, LysR family  |
| 283                 | COG0350 | L            | O6-methylguanine-DNA-protein-cysteine methyltransferase   |
| 288                 | COG1985 | H            | Pyrimidine reductase, riboflavin biosynthesis   |
| 293                 | COG3340 | E            | Peptidase E   |
| 307                 | COG0583 | K            | DNA-binding transcriptional regulator, LysR family  |
| 310                 | COG0697 | GER          | Permease of the drug/metabolite transporter (DMT) superfamily   |
| 312                 | COG4194 | S            | Uncharacterized membrane protein  |
| 313                 | COG1725 | K            | DNA-binding transcriptional regulator YhcF, GntR family   |
| 314                 | COG1510 | K            | DNA-binding transcriptional regulator GbsR, MarR family   |
| 314                 | COG3177 | K            | Fic family protein  |
| 412                 | COG1402 | HQ           | Creatinine amidohydrolase/Fe(II)-dependent formamide hydrolase involved in riboflavin and F420 biosynthesis |
| 413                 | COG0477 | GEPR         | MFS family permease   |
| 414                 | COG2508 | K            | DNA-binding transcriptional regulator, PucR family  |
| 415                 | COG0402 | FR           | Cytosine/adenosine deaminase or related metal-dependent hydrolase   |
| 448                 | COG2230 | I            | Cyclopropane fatty-acyl-phospholipid synthase and related methyltransferases                                |
| 476                 | COG2390 | K            | DNA-binding transcriptional regulator LsrR, DeoR family   |
| 488                 | COG2963 | X            | Transposase and inactivated derivatives   |
| 508                 | COG3238 | S            | Uncharacterized membrane protein YdcZ, DUF606 family  |
| 511                 | COG0232 | F            | dGTP triphosphohydrolase  |
| 555                 | COG2211 | G            | Na+/melibiose symporter or related transporter  |
| 557                 | COG1609 | K            | DNA-binding transcriptional regulator, LacI/PurR family   |
| 596                 | COG4214 | G            | ABC-type xylose transport system, permease component  |
| 597                 | COG1129 | G            | ABC-type sugar transport system, ATPase component   |
| 598                 | COG4213 | G            | ABC-type xylose transport system, periplasmic component   |
| 623                 | COG1131 | V            | ABC-type multidrug transport system, ATPase component   |
| 636                 | COG0791 | M            | Cell wall-associated hydrolase, NlpC family   |
| 639                 | COG1482 | G            | Mannose-6-phosphate isomerase, class I  |
| 656                 | COG3290 | T            | Sensor histidine kinase regulating citrate/malate metabolism  |
| 657                 | COG3279 | KT           | DNA-binding response regulator, LytR/AlgR family  |
| 659                 | COG1132 | V            | ABC-type multidrug transport system, ATPase and permease component  |
| 660                 | COG1132 | V            | ABC-type multidrug transport system, ATPase and permease component  |
| 661                 | COG1073 | T            | Fermentation-respiration switch protein FrsA, has esterase activity, DUF1100 family                         |
| 663                 | COG1983 | KT           | Phage shock protein PspC (stress-responsive transcriptional regulator)                                      |
| 680                 | COG3279 | KT           | DNA-binding response regulator, LytR/AlgR family  |
| 681                 | COG3290 | T            | Sensor histidine kinase regulating citrate/malate metabolism  |
| 685                 | COG1476 | K            | DNA-binding transcriptional regulator, XRE-family HTH domain  |
| 690                 | COG0499 | H            | S-adenosylhomocysteine hydrolase  |
| 691                 | COG0402 | FR           | Cytosine/adenosine deaminase or related metal-dependent hydrolase   |
| 692                 | COG3542 | R            | Predicted sugar epimerase, cupin superfamily  |
| 693                 | COG0834 | ET           | ABC-type amino acid transport/signal transduction system, periplasmic component/domain                      |
| 694                 | COG0765 | E            | ABC-type amino acid transport system, permease component  |
| 695                 | COG1126 | E            | ABC-type polar amino acid transport system, ATPase component  |
| 699                 | COG0532 | J            | Translation initiation factor IF-2, a GTPase  |
| 699                 | COG3266 | D            | Cell division protein DamX, binds to the septal ring, contains C-terminal SPOR domain                       |
| 702                 | COG1305 | O            | Transglutaminase-like enzyme, putative cysteine protease  |
| 703                 | COG2307 | S            | Uncharacterized conserved protein, Alpha-E superfamily  |
| 703                 | COG2308 | S            | Uncharacterized conserved protein, circularly permuted ATPgrasp superfamily                                 |
| 709                 | COG0257 | J            | Ribosomal protein L36   |
| 749                 | COG5006 | E            | Threonine/homoserine efflux transporter RhtA  |

| 987                 | COG1672 | R            | Predicted ATPase, archaeal AAA+ ATPase superfamily                                      |
| 1004                | COG3345 | G            | Alpha-galactosidase   |
| 1006                | COG5578 | S            | Uncharacterized membrane protein YesL   |
| 1012                | COG1609 | K            | DNA-binding transcriptional regulator, LacI/PurR family                                 |
| 1013                | COG3250 | G            | Beta-galactosidase/beta-glucuronidase   |
| 1014                | COG0395 | G            | ABC-type glycerol-3-phosphate transport system, permease component                      |
| 1015                | COG1175 | G            | ABC-type sugar transport system, permease component                                     |
| 1016                | COG1653 | G            | ABC-type glycerol-3-phosphate transport system, periplasmic component                   |
| 1017                | COG2723 | G            | Beta-glucosidase/6-phospho-beta-glucosidase/beta-galactosidase                          |
| 1018                | COG2755 | E            | Lysophospholipase L1 or related esterase  |
| 1024                | COG2211 | G            | Na+/melibiose symporter or related transporter  |
| 1025                | COG0395 | G            | ABC-type glycerol-3-phosphate transport system, permease component                      |
| 1026                | COG1175 | G            | ABC-type sugar transport system, permease component                                     |
| 1027                | COG2182 | G            | Maltose-binding periplasmic protein MalE  |
| 1028                | COG0366 | G            | Glycosidase   |
| 1029                | COG5578 | S            | Uncharacterized membrane protein YesL   |
| 1032                | COG4770 | I            | Acetyl/propionyl-CoA carboxylase, alpha subunit   |
| 1033                | COG1984 | E            | Allophanate hydrolase subunit 2   |
| 1033                | COG2049 | E            | Allophanate hydrolase subunit 1   |
| 1034                | COG1540 | R            | Lactam utilization protein B (function unknown)   |
| 1035                | COG4336 | S            | Uncharacterized protein YesI, UPF0317 family  |
| 1036                | COG0115 | EH           | Branched-chain amino acid aminotransferase/4-amino-4-deoxychorismate lyase              |
| 1038                | COG0683 | E            | ABC-type branched-chain amino acid transport system, periplasmic component              |
| 1040                | COG0410 | E            | ABC-type branched-chain amino acid transport system, ATPase component                   |
| 1041                | COG0411 | E            | ABC-type branched-chain amino acid transport system, ATPase component                   |
| 1042                | COG4177 | E            | ABC-type branched-chain amino acid transport system, permease component                 |
| 1043                | COG0559 | E            | Branched-chain amino acid ABC-type transport system, permease component                 |
| 1045                | COG0239 | DP           | Fluoride ion exporter CrcB/FEX, affects chromosome condensation                         |
| 1048                | COG0726 | GM           | Peptidoglycan/xylan/chitin deacetylase, PgdA/CDA1 family                                |
| 1050                | COG5340 | V            | Transcriptional regulator, predicted component of viral defense system                  |
| 1053                | COG0778 | C            | Nitroreductase  |
| 1065                | COG2367 | V            | Beta-lactamase class A  |
| 1067                | COG1113 | E            | L-asparagine transporter and related permeases  |
| 1072                | COG1733 | K            | DNA-binding transcriptional regulator, HxlR family                                      |
| 1073                | COG2910 | R            | Putative NADH-flavin reductase  |
| 1082                | COG1102 | F            | Cytidylate kinase   |
| 1082                | COG2364 | S            | Uncharacterized membrane protein YczE   |
| 1142                | COG0438 | M            | Glycosyltransferase involved in cell wall biosynthesis                                  |
| 1143                | COG1560 | I            | Lauroyl/myristoyl acyltransferase   |
| 1180                | COG1555 | L            | DNA uptake protein ComE and related DNA-binding proteins                                |

| ortholog cluster ID | COG ID  | COG category | COG description  |
|---------------------|---------|--------------|--|
| 1187                | COG3947 | TK           | Two-component response regulator, SAPR family, consists of REC, wHTH and BTAD domains              |
| 1209                | COG0517 | T            | CBS domain   |
| 1220                | COG4905 | S            | Uncharacterized membrane protein   |
| 1235                | COG0577 | V            | ABC-type antimicrobial peptide transport system, permease component                                |
| 1266                | COG1228 | Q            | Imidazolonepropionase or related amidohydrolase  |
| 1275                | COG0534 | V            | Na <sup>+</sup> -driven multidrug efflux pump  |
| 1278                | COG3189 | S            | Uncharacterized conserved protein YeaO, DUF488 family  |
| 1282                | COG3824 | O            | Predicted Zn-dependent protease, minimal metalloprotease (MMP)-like domain                         |
| 1283                | COG1490 | J            | D-Tyr-tRNATyr deacylase  |
| 1284                | COG1816 | F            | Adenosine deaminase  |
| 1289                | COG2110 | J            | O-acetyl-ADP-ribose deacetylase (regulator of RNase III), contains Macro domain                    |
| 1290                | COG2021 | E            | Homoserine acetyltransferase   |
| 1291                | COG0110 | R            | Acetyltransferase (isoleucine patch superfamily)   |
| 1293                | COG1917 | R            | Cupin domain protein related to quercetin dioxygenase  |
| 1293                | COG2207 | K            | AraC-type DNA-binding domain and AraC-containing proteins  |
| 1294                | COG0507 | L            | ATP-dependent exoDNase (exonuclease V), alpha subunit, helicase superfamily I                      |
| 1294                | COG3410 | S            | Uncharacterized protein, DUF2075 family  |
| 1295                | COG1694 | V            | NTP pyrophosphatase, house-cleaning of non-canonical NTPs  |
| 1297                | COG4842 | S            | Uncharacterized conserved protein YukE   |
| 1298                | COG4842 | S            | Uncharacterized conserved protein YukE   |
| 1300                | COG1404 | O            | Serine protease, subtilisin family   |
| 1307                | COG2271 | G            | Sugar phosphate permease   |
| 1325                | COG4585 | T            | Signal transduction histidine kinase   |
| 1326                | COG2197 | TK           | DNA-binding response regulator, NarL/FixJ family, contains REC and HTH domains                     |
| 1327                | COG4826 | O            | Serine protease inhibitor  |
| 1350                | COG2094 | L            | 3-methyladenine DNA glycosylase Mpg  |
| 1359                | COG2814 | G            | Predicted arabinose efflux permease, MFS family  |
| 1360                | COG1917 | R            | Cupin domain protein related to quercetin dioxygenase  |
| 1360                | COG2207 | K            | AraC-type DNA-binding domain and AraC-containing proteins  |
| 1361                | COG0477 | GEPR         | MFS family permease  |
| 1362                | COG2017 | G            | Galactose mutarotase or related enzyme   |
| 1363                | COG0524 | G            | Sugar or nucleoside kinase, ribokinase family  |
| 1364                | COG3822 | G            | D-lyxose ketol-isomerase   |
| 1365                | COG1349 | KG           | DNA-binding transcriptional regulator of sugar metabolism, DeoR/GlpR family                        |
| 1366                | COG0036 | G            | Pentose-5-phosphate-3-epimerase  |
| 1367                | COG0794 | GM           | D-arabinose 5-phosphate isomerase GutQ   |
| 1370                | COG1846 | K            | DNA-binding transcriptional regulator, MarR family   |
| 1371                | COG0110 | R            | Acetyltransferase (isoleucine patch superfamily)   |
| 1374                | COG0673 | R            | Predicted dehydrogenase  |
| 1375                | COG2814 | G            | Predicted arabinose efflux permease, MFS family  |
| 1377                | COG0789 | K            | DNA-binding transcriptional regulator, MerR family   |
| 1379                | COG0477 | GEPR         | MFS family permease  |
| 1380                | COG1846 | K            | DNA-binding transcriptional regulator, MarR family   |
| 1381                | COG2211 | G            | Na <sup>+</sup> /melibiose symporter or related transporter  |
| 1382                | COG5512 | R            | Predicted nucleic acid-binding protein, contains Zn-ribbon domain (includes truncated derivatives) |
| 1383                | COG1309 | K            | DNA-binding transcriptional regulator, AcrR family   |
| 1384                | COG2211 | G            | Na <sup>+</sup> /melibiose symporter or related transporter  |
| 1387                | COG1309 | K            | DNA-binding transcriptional regulator, AcrR family   |
| 1389                | COG3290 | T            | Sensor histidine kinase regulating citrate/malate metabolism                                       |
| 1390                | COG3279 | KT           | DNA-binding response regulator, LytR/AlgR family   |
| 1394                | COG0702 | R            | Uncharacterized conserved protein YbjT, contains NAD(P)-binding and DUF2867 domains                |
| 1408                | COG0346 | Q            | Catechol 2,3-dioxygenase or other lactoylglutathione lyase family enzyme                           |
| 1409                | COG0738 | G            | Fucose permease  |
| 1415                | COG0494 | V            | 8-oxo-dGTP pyrophosphatase MutT and related house-cleaning NTP pyrophosphohydrolases, NUDIX family |
| 1416                | COG1061 | KL           | Superfamily II DNA or RNA helicase   |
| 1416                | COG3886 | L            | HKD family nuclease  |
| 1440                | COG2190 | G            | Phosphotransferase system IIA component  |
| 1468                | COG1804 | I            | Crotonobetainyl-CoA:carnitine CoA-transferase CaiB and related acyl-CoA transferases               |
| 1470                | COG0679 | R            | Predicted permease   |
| 1471                | COG0028 | EH           | Acetylactate synthase large subunit or other thiamine pyrophosphate-requiring enzyme               |
| 1476                | COG4585 | T            | Signal transduction histidine kinase   |
| 1487                | COG1158 | K            | Transcription termination factor Rho   |
| 1489                | COG3537 | G            | Putative alpha-1,2-mannosidase   |
| 1503                | COG2304 | R            | Secreted protein containing bacterial Ig-like domain and vWFA domain                               |
| 1508                | COG5479 | S            | Uncharacterized conserved protein, contains LGFP repeats   |
| 1510                | COG4932 | S            | Uncharacterized surface anchored protein   |
| 1513                | COG0629 | L            | Single-stranded DNA-binding protein  |
| 1521                | COG1216 | G            | Glycosyltransferase, GT2 family  |
| 1532                | COG1714 | S            | Uncharacterized membrane protein YckC, RDD family  |
| 1532                | COG1716 | T            | Forkhead associated (FHA) domain, binds pSer, pThr, pTyr   |
| 1533                | COG1674 | D            | DNA segregation ATPase FtsK/SpoIIIE and related proteins   |
| 1536                | COG2814 | G            | Predicted arabinose efflux permease, MFS family  |
| 1543                | COG1388 | M            | LysM repeat  |
| 1545                | COG0111 | HR           | Phosphoglycerate dehydrogenase or related dehydrogenase  |
| 1559                | COG2942 | G            | Mannose or cellobiose epimerase, N-acyl-D-glucosamine 2-epimerase family                           |
| 1615                | COG3538 | S            | Meiotically up-regulated gene 157 (Mug157) protein (function unknown)                              |

|                     |         |              | NDP-sugar epimerase, includes UDP-GlcNAc-inverting 4,6-dehydratase FlaA1 and capsular polysaccharide biosynthesis protein EpsC |
| 25927               | COG1086 | MO           | Sugar transferase involved in LPS biosynthesis (colanic, teichoic acid)  |
| 25927               | COG2148 | M            | Predicted metal-dependent phosphoesterase TrpH, contains PHP domain  |
| 25953               | COG0613 | R            | Uncharacterized conserved protein, DUF2342 family  |
| 25957               | COG5282 | S            | Lyzozyme M1 (1,4-beta-N-acetylmuramidase), GH25 family   |
| 25996               | COG3757 | M            | Glycosyltransferase, catalytic subunit of cellulose synthase and poly-beta-1,6-N-acetylglucosamine synthase                    |
| 25998               | COG1215 | N            | Arabinogalactan endo-1,4-beta-galactosidase  |
| 26000               | COG3867 | G            | E3 ubiquitin-protein ligase DOA10  |
| 26000               | COG5183 | O            | Glucan-binding domain (YG repeat)  |
| 26000               | COG5263 | G            | Fucose 4-O-acetylase or related acetyltransferase  |
| 26002               | COG1216 | G            | Glycosyltransferase, GT2 family  |
| 26003               | COG3475 | I            | Phosphorylcholine metabolism protein LicD  |
| 26004               | COG1211 | I            | 2-C-methyl-D-erythritol 4-phosphate cytidylyltransferase   |
| 26005               | COG0451 | M            | Nucleoside-diphosphate-sugar epimerase   |
| 26010               | COG4990 | S            | Uncharacterized protein YvpB   |
| 26010               | COG5263 | G            | Glucan-binding domain (YG repeat)  |
| 26011               | COG1216 | G            | Glycosyltransferase, GT2 family  |
| 26013               | COG1260 | I            | Myo-inositol-1-phosphate synthase  |
| 26065               | COG2211 | G            | Na <sup>+</sup> /melibiose symporter or related transporter  |
| 26070               | COG0671 | I            | Membrane-associated phospholipid phosphatase   |
| 26072               | COG1472 | G            | Periplasmic beta-glucosidase and related glycosidases  |
| 26076               | COG4932 | S            | Uncharacterized surface anchored protein   |
| 26082               | COG3279 | KT           | DNA-binding response regulator, LytR/AlgR family   |
| 26097               | COG0768 | DM           | Cell division protein FtsI/penicillin-binding protein 2  |
| 26097               | COG1472 | G            | Periplasmic beta-glucosidase and related glycosidases  |
| 26109               | COG0494 | V            | 8-oxo-dGTP pyrophosphatase MutT and related house-cleaning NTP pyrophosphohydrolases, NUDIX family                             |
| 26119               | COG1846 | K            | DNA-binding transcriptional regulator, MarR family   |
| 26119               | COG2865 | K            | Predicted transcriptional regulator, contains HTH domain   |
| 26128               | COG0230 | J            | Ribosomal protein L34  |
| 26157               | COG0705 | O            | Membrane associated serine protease, rhomboid family   |
| 26175               | COG2197 | TK           | DNA-binding response regulator, NarL/FixJ family, contains REC and HTH domains   |
| 26178               | COG0697 | GER          | Permease of the drug/metabolite transporter (DMT) superfamily  |
| 26185               | COG0252 | JU           | L-asparaginase/archaeal Glu-tRNAGln amidotransferase subunit D   |
| 26190               | COG1511 | S            | Uncharacterized membrane protein YhgE, phage infection protein (PIP) family  |
| 26208               | COG2755 | E            | Lysophospholipase L1 or related esterase   |
| 26212               | COG0577 | V            | ABC-type antimicrobial peptide transport system, permease component  |
| 26212               | COG1511 | S            | Uncharacterized membrane protein YhgE, phage infection protein (PIP) family  |
| 26213               | COG0475 | P            | Kef-type K <sup>+</sup> transport system, membrane component KefB  |
| 26221               | COG0476 | H            | Molybdopterin or thiamine biosynthesis adenylyltransferase   |
| 26257               | COG3937 | QT           | Polyhydroxyalkanoate synthesis regulator phasin  |
| 26266               | COG1609 | K            | DNA-binding transcriptional regulator, LacI/PurR family  |
| 26271               | COG3534 | G            | Alpha-L-arabinofuranosidase  |
| 26277               | COG0452 | H            | Phosphopantothenoylcysteine synthetase/decarboxylase   |
| 26284               | COG0626 | E            | Cystathionine beta-lyase/cystathionine gamma-synthase  |
| 26285               | COG0514 | L            | Superfamily II DNA helicase RecQ   |
| 26289               | COG0787 | M            | Alanine racemase   |
| 26293               | COG0480 | J            | Translation elongation factor EF-G, a GTPase   |
| 26293               | COG3688 | R            | Predicted RNA-binding protein containing a PIN domain  |
| 26294               | COG0456 | J            | Ribosomal protein S18 acetylase RimI and related acetyltransferases  |
| 26303               | COG1609 | K            | DNA-binding transcriptional regulator, LacI/PurR family  |
| 26311               | COG1893 | H            | Ketopantoate reductase   |
| 26312               | COG1464 | P            | ABC-type metal ion transport system, periplasmic component/surface antigen   |
| 26313               | COG1135 | E            | ABC-type methionine transport system, ATPase component   |
| 26314               | COG2011 | E            | ABC-type methionine transport system, permease component   |
| 26315               | COG0436 | E            | Aspartate/methionine/tyrosine aminotransferase   |
| 26346               | COG0152 | F            | Phosphoribosylaminoimidazole-succinocarboxamide synthase   |
