MRV1 = mammalian orthoreovirus serotype 1; MRV2 = mammalian orthoreovirus serotype 2; MRV3-4 = mammalian orthoreovirus serotype 3 and 4. +S1 = Sigma-1. * Primers position were determined based on reference MRV1 – T1 Lang strain M14779, the MRV2-T2 strain M35964 and MRV3-4 – T3 strains EF494441.
