

Supplementary Materials

Figure S1. Voxels survived SnPM thresholding with moral psychology fMRI data (Red to purple: SnPM clusterwise, Blue to purple: SnPM voxelwise)

Figure S2. Voxels survived 3DClustSim thresholding with moral psychology fMRI data (Red to purple: with acf, Blue to purple: without acf)

Figure S3. Voxels survived TFCE thresholding with moral psychology fMRI data

Figure S4. Voxels survived SnPM thresholding with working memory fMRI data (Red to purple: SnPM clusterwise, Blue to purple: SnPM voxelwise)

Figure S5. Voxels survived 3DClustSim thresholding with working memory fMRI data (Red to purple: with acf, Blue to purple: without acf)

Figure S6. Voxels survived TFCE thresholding with working memory fMRI data
