The following paragraphs have been reproduced from the website of the publisher [1]:

*Making Spatial Decisions Using ArcGIS Pro* is a textbook that provides the user with a broad overview of the capabilities of using ArcGIS Pro to use geospatial tools to solve real-world problems. This book takes full advantage of the integrative nature of ArcGIS Pro and its advanced capabilities to seamlessly unite cloud-based and desktop GIS. The lessons included in this book have been adapted and updated from lessons from Keranen and Kolvoord's popular first three ESRI Press books: *Making Spatial Decisions Using GIS*, *Making Spatial Decisions Using Remote Sensing*, and *Making Spatial Decisions Using Lidar*.

**Table of Contents**

Preface

Acknowledgments

Introduction

Module 1: Hazardous emergency decisions

PROJECT 1: An explosive situation in Springfield, Virginia

PROJECT 2: Skirting the spill in Mecklenburg County, North Carolina

Module 2: Hurricane damage decisions

PROJECT 1: Coastal flooding from Hurricane Katrina

PROJECT 2: Hurricane Wilma storm surge

Module 3: Law enforcement decisions

PROJECT 1: Crime in the nation's capital

PROJECT 2: Analyzing crime in San Diego, California

Module 4: Composite images

PROJECT 1: Creating multispectral imagery of the Chesapeake Bay

PROJECT 2: Multispectral composite bands of the Las Vegas area

Module 5: Unsupervised classification

PROJECT 1: Calculating unsupervised classification of the Chesapeake Bay

PROJECT 2: Calculating unsupervised classification of Las Vegas, Nevada

#### Module 6: Supervised classification

PROJECT 1: Calculating supervised classification of the Chesapeake Bay

PROJECT 2: Calculating supervised classification of Las Vegas, Nevada

#### Module 7: Basic lidar skills

PROJECT 1: Basic lidar skills using Baltimore, Maryland, data

PROJECT 2: San Francisco, California

#### Module 8: Location of solar panels

PROJECT 1: James Madison University, Harrisonburg, Virginia

PROJECT 2: University of San Francisco, San Francisco, California

#### Module 9: Forest vegetation height

PROJECT 1: George Washington National Forest, Virginia

PROJECT 2: Michaux State Forest, Pennsylvania
