

Supplementary Material

Supplementary Table S1. Proximity matrix of the answers in the four questions of the two hypothetical scenarios (Dice measure)⁽¹⁾

		Scenario 1 Question 1				Scenario 1 Question 2				Scenario 2 Question 1			Scenario 2 Question 2		
		Intensivists	Family	Patient	Uncertain	Intensivists	Family	Patient	Uncertain	Intensivists	Family	Uncertain	Shouldn't stop	Intensivists	Family
Scenario 1 Question 1	Family	.000													
	Patient	.000	.600												
	Uncertain	.000	.000	.000											
Scenario 1 Question 2	Intensivists	.220	.632	.535	.059										
	Family	.062	.749	.585	.020	.746									
	Patient	.062	.569	.877	.061	.515	.583								
	Uncertain	.000	.094	.062	.706	.000	.000	.000							
Scenario 2 Question 1	Intensivists	.581	.000	.078	.182	.194	.060	.135	.171						
	Family	.068	.733	.784	.067	.630	.667	.763	.106	.000					
	Uncertain	.000	.130	.167	.444	.132	.155	.176	.368	.000	.000				
Scenario 2 Question 2	Shouldn't stop	.148	.158	.112	.069	.162	.167	.140	.065	.133	.137	.061			
	Intensivists	.177	.578	.597	.139	.670	.560	.595	.154	.190	.681	.151	.000		
	Family	.106	.670	.730	.104	.598	.627	.709	.118	.074	.829	.130	.000	.774	
	Uncertain	.053	.107	.206	.350	.127	.131	.214	.333	.146	.166	.364	.000	.000	.000

(1) Similarities larger than 0.6 are bold. Lower than 0.3 are grayed out.
