

Correction

# Correction: Heuritsch, J. Reflexive Behaviour: How Publication Pressure Affects Research Quality in Astronomy. *Publications* 2021, 9, 52

Julia Heuritsch 

Research Group "Reflexive Metrics", Institut für Sozialwissenschaften, Humboldt Universität zu Berlin, Unter den Linden 6, 10117 Berlin, Germany; julia.heuritsch@hu-berlin.de

The author was responsible for these errors in the original publication [1], as listed below:

## Text Correction

**In the "Abstract" and Section "7. Conclusions, Implications and Outlook for Further Research", it should read 19% instead of 10% regarding the variance in occurrence of misconduct.**

"We found that publication pressure explains 19% of the variance in occurrence of misconduct and between 7% and 13% of the variance of the perception of distributive and organisational justice as well as overcommitment to work."

**When describing the control variables and subsequent analyses, a reference category (primary employer) was missing in Section "3.2.3. Control Variables", and Section "4.4. Structural Equation Model". The correct categories should be:**

"gender: female/non-binary; academic position: full professor; **primary employer: non-academic**; institute location: Global South; number of papers published: 1–5."

**In Section "5. Discussion", the variance values for Global South should be 8% instead of 5%; for organisational justice in terms of telescope time application should be 2% instead of 3%, and for publication pressure should be 19% instead of 10%.**

"We found that the location of the institution where an astronomer is employed in terms of the Global North versus Global South makes up about 8% of the variance of observed misconduct. Perceived organisational justice in terms of telescope time application processes explains 2% and perceived publication pressure explains nearly 19% of the variance of observed misconduct."

## Citation Correction

**On page 5 paragraph "New public management", a reference is spelled out instead of using its corresponding numbering.**

"at the cost of research integrity and the scientific enterprise (Anderson et al., 2007)" should be "at the cost of research integrity and the scientific enterprise [12]"

**In Section "3.2.1. Dependent Variables", a reference was mixed up.**

"Martinson et al. [15,19,25,26]" should be "Martinson et al. [17,19,25,26]"

The author state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
