

## Supplementary Figure

**Supplementary Figure S1.** Effects of Wnt signal pathway activator LiCl and inhibitor XAV939 on the viability of HCT116 cells. **(A)** Cell viability of HCT116 cells treated with LiCl for 48 h; **(B)** cell viability of HCT116 cells treated with XAV939 for 48 h. \*  $P < 0.05$ ; \*\*  $P < 0.01$ . Compared with the blank control group.
