

Special Issue

Concentrated Solar Energy for Materials

Message from the Guest Editors

For this Special Issue on “Concentrated Solar Energy”, researchers can report their findings on the application of concentrating solar thermal radiation to the synthesis, transformation, and treatment (melting, sintering, reduction, etc.) of materials (metals, alloys, steel, glass, ceramics, cement, composites, etc.). Given your reputed experience in this field, and the outstanding impact of your previous publications, we would very much appreciate your contribution in this Special Issue of *ChemEngineering*.

Guest Editors

Dr. Aurora López-Delgado

Dr. Maximina Romero

Dr. Isabel Padilla

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Alírio E. Rodrigues

Laboratory of Separation and Reaction Engineering - Laboratory of Catalysis and Materials (LSRE-LCM), Department of Chemical Engineering, Faculty of Engineering, University of Porto, 4200-465 Porto, Portugal

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (General Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 7.6 days (median values for papers published in this journal in the first half of 2024).
