

Special Issue

History, Present and Future of Neonatal Screening

Message from the Guest Editors

Starting with two contributions on Dr. Louis Woolf, and with reference to the recent publication of biographies on Dr Max Wilson and Dr Gunnar Jungner in recent issues of IJNS, we herewith present a special issue on historically significant events and significant key players in neonatal screening. For this Special Issue, and Prof. Rodney Howell welcome biographies of colleagues that should be honored for their contribution to the field of neonatal screening or the history of all aspects of neonatal screening that have developed throughout the past decades and still determine neonatal screening today, and in the foreseeable future.

Dr. Peter C.J.I. Schielen

Guest Editors

Dr. Veronica Wiley
Prof. Dr. R. Rodney Howell

About the Journal

Message from the Editorial Board

The *International Journal of Neonatal Screening (IJNS)* is owned by the International Society for Neonatal Screening. The journal is a publishing platform for all topics concerning newborn screening and covers clinical presentations, metabolite pattern detection, technical aspects, and “tips and tricks”. “Tips and tricks” will appear in the form of “Technical Notes” on the journal website, thus making *IJNS* the platform for NBS laboratories to share their valuable information as to how they have improved assays, workflow, and performance. Such improvements are sometimes achieved through tiny adaptations of existing methods, which normally remain in lab journals, but which might help improve the performance of NBS laboratories around the world.

Editors-in-Chief

Dr. Peter C. J. I. Schielen

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank:

JCR - Q1 (Pediatrics) / CiteScore - Q1 (Pediatrics, Perinatology and Child Health)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 26.7 days after submission; acceptance to publication is undertaken in 4.5 days (median values for papers published in this journal in the second half of 2025).
