Message from the Guest Editor

Dear Colleagues,

The International Conference on Logistics and Industrial Engineering (ICLIE) 2021 (<https://iclie-vlu.com/>) will be held at Van Lang University, Ho Chi Minh City, Vietnam, 27–28 August 2021.

The ICLIE 2021 event aims to collect high-quality research studies from leading researchers, educators, software developers, and practitioners to discuss current issues, share ideas and experiences on the latest development in the field of technology and innovation, technology management, industrial system engineering, logistics and supply chain management, and management sciences.

This Special Issue is being published in cooperation with ICLIE 2021. The authors of outstanding papers related to industrial engineering/ supply chain management are invited to submit their manuscript to this Special Issue for publication.

Prof. Dr. Chia-Nan Wang
Guest Editor
