Deadline for manuscript
submissions:

12 September 2024

Message from the Guest Editor

The literature has stated the impact of technologies in both large- and small-scale businesses and has noted the competencies and entrepreneurial behavior required to successfully achieve digital transformation. While the literature has shed light on adoption, barriers and opportunities in relation to technologies, there are knowledge gaps concerning emerging technologies and the nature of entrepreneurial initiatives that may emerge from the use of such technologies. We are yet to ascertain how emerging technologies may impact business models, innovation, entrepreneurial intent, or behavior. It is in this context that this Special Issue is proposed. We call for papers from authors who are interested in contributing to the following topics:

- Emerging technologies and entrepreneurship;
- Business model innovation and emerging technologies;
- I, big data, data analytics in large firms and SMEs;
- Digital transformation and digitalization;
- Emerging technologies and public sector firms;
- Internationalization and emerging technologies;
- Entrepreneurial competencies in the context of emerging technologies;
- Ecosystem, open innovation and technologies.

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [RePEc](#), [EconBiz](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Management*) / CiteScore - Q2 (*General Business, Management and Accounting*)
