Deadline for manuscript  
submissions:

**closed (31 December 2020)**

### Message from the Guest Editor

Dear Colleagues,

Financial markets have undergone a substantial wave of turbulence during the past two decades. The recent economic crisis reshaped general considerations about economic policy analysis and risk management and led to relevant regulatory measures. In this context, improving risk management tools and practices has emerged as one of the hottest topics in macro-finance for both academics and investors.

The objective of this special issue is to provide an international forum for high-quality theoretical and empirical macro and micro economic and financial analysis.

We encourage submissions that are related, but not limited, to the following topics:

- Financial Risk Management and Analysis
- Forecasting of Financial Distress
- Market Dynamics and Prediction
- Issues Relating to Domestic and International Financial Stability
- Economic Policy Uncertainty
- Macprudential Policies and Supervision
- Systemic Risk
- Monetary Economics
- Financial Econometrics...

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
