submissions:

closed (30 January 2022)

Message from the Guest Editors

This Special Issue invites authors to send theoretical and empirical proposals to contribute to a greater understanding of the practices of sustainability management and accounting by the public sector, promoting papers providing experiences coming from different type of public organisations and countries.

Potential topics include, but are not limited to, contributions concerning public sector on the follows:

- Form the Burthland Report to date, does the commitments of governments toward sustainability changed? How?
- Relationship between sustainability and SDGs: what is new?
- Sustainability and environmental accounting practices
- How do sustainability commitment and discourse establishes and develops within organisations?
- Analysis of costs and benefits related to sustainability management practices
- Lesson learned from practices of sustainability management and accounting
- Channels and tools to promote and engage human resources in sustainability initiatives
- Assessment and visualising tools for sustainability
- Accountability tools for sustainability

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.
