Dr. Grzegorz Zimon
Faculty of Management, Rzeszow University of Technology, 35-959 Rzeszow, Poland

Deadline for manuscript submissions:
closed (31 December 2021)

Message from the Guest Editors

Supply chains are forced to look for new concepts and ideas influencing, for example, the minimization of costs, improvement of quality of services provided, reduction of harmful impact on the environment, and improvement of customer service. The emerging systems from these competing supply chain needs are standardized management systems. These systems contain a set of solutions conducive to accelerating technical and organizational progress, reducing production costs, improving customer service, and eliminating barriers to trade and functioning on international markets. Standardized management systems and supply chain management have convergent aspects and common benefits.

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, ESCI (Web of Science), RePEc, EconBiz, and other databases.
Journal Rank: JCR - Q2 (*Management*) / CiteScore - Q2 (*General Business, Management and Accounting*)
