Message from the Guest Editors

Dear Colleagues,

In answering to the challenge of the COVID-19 pandemic, knowledge asset dynamics play a crucial role. In this line, we welcome submissions, both conceptual and empirical, from a variety of disciplines, perspectives, and methodological approaches. Topics of this Special include (but are not restricted to) the following:

- Historical antecedents in the interplay between knowledge, resilience, and socio-economic transformation;
- Black swans, knowledge asset dynamics, and resilience;
- Interplay between dynamic capabilities and transformative resilience;
- Knowledge exploration, social innovation, and resilience;
- Knowledge-building processes and sensemaking during crises;
- Designing resilience during systemic shocks;
- The role of companies, institutions, and decision makers in reinforcing and/or balancing systems' resilient behaviors;
- Resilience between the exploitation and exploration of knowledge;
- Implementing resilient policies and intervention strategies to address first-order and second-order change.

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.
