Message from the Guest Editors

Dear Colleagues,

Digital government and its transformation are central to research and policy. The integration of digital technologies and applications plays a special role in the implementation of public sector reforms, enhancing the quality of public sector management and institutional capacities. It also contributes to tangible changes in processes, procedures, functions and institutions, as well as a focus on values, culture and shared understanding. Perez's (2009) technological paradigm shows that a shift in digital transformation is evidenced by changes in the working methods used, the implementation of digital processes and structural changes in the department, a strong use of information and communication technologies, and an acceleration in terms of transactions and interactions. Technological changes have had a positive impact on numerous aspects of everyday life, and there is plenty of research evidence to suggest that the digital transformation of public administrations leads to innovative and valuable results...

Special Issue

Editor-in-Chief

Prof. Dr. Isabel-María Garcia-Sanchez
Departamento de Administración y Economía de la Empresa, Universidad de Salamanca, 37007 Salamanca, Spain

Message from the Editor-in-Chief

Welcome to *Administrative Sciences*, the journal aims to advance and communicate knowledge concerning management theory and practice both in public administration and in profit organizations; it encourages submissions that build on interdisciplinary research in related fields, such as business, economics, political science, gender studies, psychology, sociology, physiology, communication theory or artificial intelligence and their implications on management, organizations and the society. Join us on a journey through the *Administrative Sciences*, where management merges with innovation.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, ESCI (Web of Science), RePEc, EconBiz, and other databases.
Journal Rank: JCR - Q2 (*Management*) / CiteScore - Q2 (*General Business, Management and Accounting*)
