### Message from the Guest Editors

We are delighted to invite you to submit manuscripts for our upcoming Special Issue on hydroponic crop production. This Issue will explore the challenges and opportunities of maximizing nutrient and water use efficiency in hydroponic crop production, especially when using marginal water qualities. Efficient use of resources and sustainable management of low-quality water sources such as treated wastewater, nitrate-rich groundwater, or brackish water will contribute to expanding hydroponic cropping in regions where clean water is scarce. Moreover, this will limit the impacts on the aquatic environment and improve food security.

We warmly welcome your contributions from a range of disciplines, including agriculture, engineering and environmental sciences, to showcase cutting-edge research and innovative solutions.

Deadline for manuscript  
submissions:

**20 January 2025**

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

**Journal Rank:** JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
