Message from the Guest Editors

This Special Issue, Trade Development and Value Chains in Agriculture, will focus on the various parts of the value chain: the primary production, industry, trade and consumers. It will include inter-disciplinary studies on all the agrifood sectors, supplies, raw materials, foods and beverages. The research articles will cover a broad range of topics, such as the most vulnerable sectors, the solutions, and measures adopted, a cost analysis, the interest of agricultural policies, the environmental effects on the agrifood chain, the cost and benefit of each link in the chain, consumer perception of the value chain, the final prices in an inflationary context, the consequences for the international market, the effect of decreasing agricultural production on the development of rural areas and social cohesion. Any type of article, including original research, opinions, and reviews are greatly appreciated.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank: JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
