Engineering, Technology in Crop  
Production, University of  
Hohenheim, Garbenstr. 9, 70599  
Stuttgart, Germany

Deadline for manuscript  
submissions:

**closed (15 November 2023)**

### Message from the Guest Editor

Each farming process is powered by specific agricultural implements and technologies which require experts in advanced machine design to cope with the field variability. A thorough understanding of the latest agricultural machinery, technologies, and engineering solutions implemented in the farming processes is of crucial importance to eliminate the undesired effects of field applications and to enhance crop production and its sustainability.

This Special Issue aims to cover a wide range of theoretical and experimental research contents that are related to farming processes from plowing to harvesting. This also includes the implementation of leading-edge technologies in the mentioned farming processes, and new and innovative or additional instrumentation of agricultural implements to communicate external farm data sources for better performances, relating to the fields of agricultural engineering. All types of articles, such as original research, opinions, and reviews are welcomed by this Special Issue.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

**Journal Rank:** JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
