### Message from the Guest Editors

Dear Colleagues,

Rural areas in developing countries are potentially politically marginalized, i.e., receive subpar service delivery, for two reasons. First, clientelism implies political representatives offer targeted benefits to gain political support, averting broad public good provision. Second, barriers to collective action due to lack of information or coordination precludes rural groups from demanding improved service delivery. Enhancing agricultural productivity is fundamentally dependent on improving the delivery of infrastructure and services to rural areas. Despite this documented marginalization of rural areas from the provision of key services, there is emerging evidence that political are paying attention to rural areas.

This Special Issue focuses on service delivery in rural areas, and recent trends in the incentives of government service providers in delivering rural services. It welcomes highly interdisciplinary quality studies from disparate research fields including agriculture, political economy, governance, environmental policy, and development and labor economics. Original research articles and reviews are accepted.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

**Journal Rank:** JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
