

## Research Advances in Perception for Agricultural Robots

Guest Editors:

### Dr. Hanwen Kang

College of Engineering, South  
China Agriculture University,  
Guangzhou 510070, China

### Dr. Hugh Zhou

Department of Mechanical and  
Aerospace Engineering, Monash  
University, Clayton, VIC 3800,  
Australia

### Dr. Yaohui Chen

College of Engineering,  
Huazhong Agricultural University,  
Wuhan 430070, China

Deadline for manuscript  
submissions:

**25 November 2024**

### Message from the Guest Editors

This Special Issue aims to publish original, peer-reviewed papers on state-of-the-art smart sensing and perception technologies and their practical applications in agricultural robotic systems. These papers will encompass various artificial intelligence methodologies applied to different robotic platforms, including flying and ground-based systems, with a particular focus on their advanced perceptual and cognitive capabilities. These technologies will be explored for applications in smart agriculture, spanning livestock, horticulture, forestry and related fields. Articles related to smart robots in agriculture are encouraged, highlighting innovations in software and hardware development. Submissions in the form of original research, short communications and comprehensive reviews are welcome.

Keywords: robotics; machine learning; deep learning; computer vision; perception; navigation; manipulation

an Open Access Journal by MDPI

Sydney Institute of Agriculture,  
School of Life and Environmental  
Sciences, The University of  
Sydney, Sydney, NSW 2006,  
Australia

## Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

**Journal Rank:** JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
