## Sustainable Water-Resource Strategies in Agriculture for Climate Change Adaptation

Guest Editors:

**Dr. Valentina Baratella**

Council for Agricultural Research and Economics, Research Center for Agriculture and Environment (CREA-AA), Via della Navicella 2-4, 00184 Rome, Italy

**Dr. Claudia Di Bene**

Council for Agricultural Research and Economics, Research Center for Agriculture and Environment (CREA-AA), Via della Navicella 2-4, 00184 Rome, Italy

**Silvia Vanino**

Council for Agricultural Research and Economics, Research Center for Agriculture and Environment (CREA-AA), Via della Navicella 2-4, 00184 Rome, Italy

Deadline for manuscript submissions:

**15 October 2024**

### Message from the Guest Editors

This Special Issue will address sustainable water resource strategies in agriculture and their current state of the art, focusing on the latest developments in practices and approaches at different scales: crops, farms, and agricultural systems.

Topics that will be considered include:

- effects of crop and soil management strategies on water use efficiency (e.g., crop diversification, rotation, agroforestry, cover crops, residue management, minimum or no tillage, physiological plant regulation of water productivity) and/or soil water conservation (e.g., mycorrhizal inoculation, use of amendments, anti-transpirants);
- improved irrigation water management and effects on water productivity (e.g., drip irrigation, deficit irrigation, subsurface irrigation, water-fertilizer coupling, use of irrigation adjuvants);
- innovative measuring and modeling approaches.

School of Life and Environmental  
Sciences, The University of  
Sydney, Sydney, NSW 2006,  
Australia

## Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

**Journal Rank:** JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
