Economics, Faculty of Veterinary
Medicine, Aristotle University of
Thessaloniki, 54 124 Thessaloniki,
Greece

Deadline for manuscript
submissions:

25 November 2024

Message from the Guest Editors

The agricultural and livestock sectors face significant structural, operational, market, and environmental challenges, which pose threats to their future sustainability. This Special Issue aims to bring together contributions from a wide range of disciplines relating to the measurement, analysis, and improvements in productivity components, particularly innovation and the efficiency of crop and livestock production (agricultural economics, performance analysis, livestock production and animal husbandry, management sciences, operations research, environmental analysis, etc.) to highlight transdisciplinary advancements.

Research areas may include (but are not limited to) the following:

- Efficiency analysis of crop and livestock systems;
- Performance and productivity analysis of crop and livestock systems;
- Best observed managerial practices for sustainable crop and livestock systems;
- Optimization of agricultural activities;
- Agricultural eco-efficiency/life-cycle impact assessment of farming systems;
- Agricultural policies, economics transitions, and productivity;
- Efficient management of natural resources/ecosystem services;
- Novel agri-food systems/sustainable food value chains

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank: JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
