Commemorating the 800th Anniversary of the University of Padua through the Intellect of Its Scholars in Agricultural Sciences

Message from the Guest Editors

In 2022, the University of Padova will celebrate its 800th anniversary, a milestone that very few of the world's universities have reached. To celebrate this important anniversary, the university has chosen to carry out "projects to pass on to future generations". These projects are inspired by its core values of liberty of research and openness toward the world. This Special Issue of *Agriculture* focuses on Paduan scholars and academics who have carried out research in the frame of 'Agricultural Sciences' in past centuries. Their research contributions will be reviewed in light of modern scientific knowledge.
