

## Selected Papers from 11th Iberian Agroengineering Congress

Guest Editors:

**Prof. Dr. Adriana Correa**

Department of Agricultural and Forestry Engineering, University of Valladolid, Campus La Yutera, 34004 Palencia, Spain

**Prof. Dr. María Dolores Gómez-López**

Agroforestry Engineering Area, University of Cartagena, 30203 Cartagena, Spain

**Prof. Dr. Jesús Montero Martínez**

Regional Centre for Water Research, University of Castilla-La Mancha, 02001 Albacete, Spain

Deadline for manuscript submissions:

**closed (31 May 2022)**

### Message from the Guest Editors

Dear Colleagues,

In 2017, the Food and Agriculture Organization (FAO) issued a report on the challenges that agriculture is facing and will face into the 21st century, which can be summarized in one question: will we be able to sustainably and effectively feed everyone by 2050 and beyond, while meeting the additional demand for agricultural commodities due to non-food uses?

The Iberian Agroengineering Congress series brings together Spanish- and Portuguese-speaking engineers, researchers, educators, and practitioners to present and discuss innovations, trends, and solutions to the challenges in the interdisciplinary field of agricultural and biosystems engineering. This biennial congress, jointly organized by the Spanish Society of Agroengineering and the Specialized Section of Rural Engineering of the Sociedade de Ciências Agrárias de Portugal, is an excellent opportunity to network and discuss future developments. In its 11th edition, the Congress will be held virtually from 11–12 November, due to the restrictions to mobility caused by the COVID-19 pandemic. Additional information can be found at <http://www.agroing2021.com>.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Agronomy and Crop Science)
