### **Message from the Guest Editor**

Dear Colleagues,

The "*Fruit Growing: Production Practices and Post-harvest Management*" Special Issue, now in its 2nd edition, delves into the latest advancements and best practices in fruit cultivation. This edition aims to provide a comprehensive platform for researchers to share insights on innovative production techniques and effective post-harvest management strategies. Topics covered include sustainable cultivation methods, pest and disease management, genetic improvements, and cutting-edge post-harvest technologies. This Special Issue serves as a valuable resource for the fruit-growing community, fostering collaboration and knowledge exchange to enhance the productivity and quality of fruit crops globally.
