submissions:

closed (31 December 2023)

Message from the Guest Editors

Dear Colleagues,

This Special Issue is aimed at the portion of the global research community involved in the development of new algorithms and applications of data analysis, health monitoring, and data acquisition for precision agriculture. Specific topics include, but are not limited to, the following areas of discussion:

- nutrient monitoring;
- crop disease monitoring;
- yield prediction;
- time-series analysis for agriculture monitoring;
- crop monitoring based on multi-sources data;
- mechanism analysis of remote sensing

Dr. Dan Li

Dr. Yingying Dong

Dr. Qiong Zheng

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Agronomy and Crop Science)
