

Omics Approaches for Crop Improvement—Volume II

Guest Editors:

Dr. Roxana Yockteng

Dr. Andrés J. Cortés

Dr. María Ángeles Castillejo

Message from the Guest Editors

This Special Issue envisions offering updated views on multidimensional large-scale omics-based approaches. Specifically, we welcome studies that explore the uses of the omics paradigm, and their integration through trans-disciplinary bioinformatics, as tools to improve qualitative and quantitative traits in crop species.

Deadline for manuscript
submissions:

30 July 2026

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GEOBASE, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
