Message from the Guest Editors

Aiming to promote sustainable agriculture and food and fibre production following a sustainable circular economy approach, this Special Issue focuses on agriculture and food, feed, and fibre waste management, as well as the treatment and promotion of alternate uses of processed materials. Contributions demonstrating relevance to achieving the United Nations sustainable development goals, the European Green Deal, and Farm to Fork Strategy are included among sought-after articles.

The Special Issue welcomes novel research, reviews, and opinion pieces covering all related topics, including, but not limited to:

- Generation, characterization, and minimization;
- Storage, collection, and transportation;
- Treatment (mechanical, biological, chemical, thermal, other);
- Emerging technologies of agro-food waste valorization;
- Biofuels and renewable energy production;
- Non-conventional utilization of processed wastes and by-products;
- Organic fertilizer production and utilization;
- Environmental assessments and planning;
- Socio-economic analysis, policies, and regulations;
- Corporate social responsibility and its impacts on stakeholders and society;
- Circularity in agri-food industries.

Special Issue

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Agronomy and Crop Science)
