Message from the Guest Editors

Dear Colleagues,

This Special Issue will offer comprehensive coverage of the impacts of climate change and human activities on the changes in the structure and function change of grassland ecosystems. We kindly invite authors to submit a review article, an original research article, or a short communication on topics related to the carbon water cycle of grassland ecosystems, plant community structure and species diversity, grassland eco-hydrology, soil microbial diversity and function and remote sensing monitoring of grassland degradation and its driving mechanism.

As Guest Editors, we look forward to reviewing your relevant contributions to this Special Issue.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Agronomy and Crop Science)
