Message from the Guest Editors

Dear Colleagues,

In this Issue, we invite you to submit papers describing the effects of abiotic and biotic stresses on legume–rhizobial symbiosis on organism, histological, cellular, and transcriptional levels.

Submissions on the following topics (but not limited to) are invited: 1) Symbiotic nodules and oxidative stress; 2) Impact of heavy metals on legume–rhizobial symbiosis; 3) Symbiotic nodules and pesticides; 4) Biotic stresses and nitrogen-fixing nodules; 5) Global warming, drought, and nitrogen fixation; 6) Nitrogen-fixing nodules and salt stress. Original research papers, methods, reviews, and short communications are welcome.

Dr. Anna Tsyganova

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Agronomy and Crop Science)
