submissions:

closed (30 September 2022)

Message from the Guest Editor

Dear Colleagues,

Agricultural products are the basis of nutrition and support the normal metabolism against different pathologies. The nutritional value and functional properties of agricultural products are mainly related to foods rich in active ingredients that contribute to maintaining good health. The nutritional properties and the active principles obtained from agricultural products can play an important role in the body by performing various health and metabolic functions.

This Special Issue encourages the submission of high-quality research articles and reviews covering recent advances in the nutritional and functional characterization of agricultural products and derived compounds used in healthy foods.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GEOBASE, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
