Message from the Guest Editors

The purpose of this special issue is to publish high-quality research articles addressing recent developments on cultivating horticultural plants in soilless culture and growing media. The present special issue aims to provide contributions from a variety of current relevant topics in the horticultural sciences, physiology, root medium properties, plant propagation, plant nutrition and chemistry, substrate hydrology and physics, compost and waste management, engineering as well as all other research fields familiar with soilless culture and growing media.

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GEOBASE, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
