Message from the Guest Editors

This special issue will include articles that analyze the CO₂ technologies applied to the agronomy from the economic, environmental and social points of view. Particular consideration is given (but not limited) to empirical articles that analyze the contribution to the vegetable production of new applications in market price analysis, studies of costs, economic, environmental and social considerations, efficiency, circular economy, precision agriculture, smart farming, automation, sensor technology, nutrients and waste management, life cycle analysis, production, storage and/or consumption of CO₂, renewable energy and bioenergy. Anyway, the use mathematical models and control approaches will be welcomed.

Papers included in this Special Issue will address the following areas:

- Smart farming and precision agriculture
- CO₂ storage, generation, uses, management and technologies
- Carbon cycle
- Life cycle analysis
- Cost Management
- On plant solutions
- On biotechnology solutions
- Automatic control
- Modelling
- Decision Support Systems, DSS
- Circular Economy
- Business model.
 - Renewable energy Declassue

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
