2. Faculty of Science, ARC Centre for Plant Energy Biology, The University of Western Australia, Perth, Crawley, WA 6009, Australia

### **Message from the Guest Editor**

Plants respond to diverse environmental stimuli such as light, nutrients, temperature, and oxygen, which shape their growth and fate. When these stimuli are suboptimal for adequate plant growth, they cause stress. This Special Issue aims to collect research articles providing evidence about plant responses to stresses and environmental stimuli. Methodological papers describing new technologies for plant phenotyping or evaluating plant responses and reviews providing a comprehensive view of this topic are welcome.

Deadline for manuscript submissions:

**closed (15 May 2022)**

an Open Access Journal by MDPI

## Editor-in-Chief

## Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Agronomy and Crop Science)
