

It Runs in the Family: The Importance of the Lamiaceae Family Species

Guest Editor:

Dr. Antonios Chrysargyris

Department of Agricultural Sciences, Biotechnology and Food Science, Cyprus University of Technology, Limassol 3036, Cyprus

Deadline for manuscript submissions:

closed (25 January 2024)

Message from the Guest Editor

The aim of this Special Issue is to collect state-of-the-art research on species from the Lamiaceae family that will provide new insights on the importance and unique properties of these plants. All recent advances in the introduction of native (or new) species to cultivation schemes, new cultivation techniques (hydroponics, substrates), new applications and uses (edible flowers, urban uses, postharvest management, etc.), and innovative and improved methods of determining biological properties will also be covered in this Special Issue.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Agronomy and Crop Science)
