Message from the Guest Editors

This Special Issue aims to collect high-quality reviews and original papers in the relevant artificial intelligence (AI) research fields. We encourage researchers from various fields within the journal's scope (<https://www.mdpi.com/journal/ai/about>) to contribute papers that highlight the latest developments in their research field, or to invite relevant experts and colleagues to do so. The topics of this Special Issue include, but are not limited to, the following:

- machine and deep learning;
- knowledge reasoning and discovery;
- automated planning and scheduling;
- natural language processing and recognition;
- computer vision;
- intelligent robotics;
- artificial neural networks;
- artificial general intelligence;
- applications of AI.
