

Wearable Technologies and Their Applications

Guest Editor:

Dr. Maryam Ravan

Department of Electrical and
Computer Engineering, New York
Institute of Technology (NYIT),
NYC Campus, Room 810, 1855
Broadway, New York, NY 10023-
7692, USA

Deadline for manuscript
submissions:

closed (15 January 2024)

Message from the Guest Editor

We invite you to submit your latest research on the area of developing wearable devices, as well as their applications, to this Special Issue, “Wearable Technologies and Their Applications”. We are looking for original research and review articles related to wearable technologies. Topics in this Special Issue include, but are not limited to, wearable sensing technologies and monitors, smart textiles, exoskeletons, wearable robotics, the Internet of things, embedded circuits for data acquisition and processing, and human–computer interaction.

- wearable sensors
- flexible/stretchable electronics
- smart textiles
- wearable robotics
- exoskeletons
- implantable devices
- rehabilitation and assistive technologies
- Internet of things
- human–computer interaction
- data fusion and processing

an Open Access Journal by MDPI

Germany

Message from the Editor-in-Chief

Algorithms are the very core of Computer Science. The whole area has been considered from quite different perspectives, having led to the development of many sub-communities: Complexity theory (limitations), approximation or parameterized algorithms (types of problems), geometric algorithms (subject area), metaheuristics, algorithm engineering, medical imaging (applications), indicates the range of perspectives. Our journal welcomes submissions written from any of these perspectives, so that it may become a forum for exchange of ideas between the corresponding scientific subcommunities.

Author Benefits

Open Access : free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Ei Compindex, and other databases.

Journal Rank: JCR - Q2 (*Computer Science, Theory and Methods*) / CiteScore - Q1 (Numerical Analysis)
