Message from the Guest Editor

Dear Colleagues,

Bats are fascinating animals that amaze researchers all over the world. The ecological and morphological diversity of these mammals are unique, facilitating a wide range of very different research activities. In recent times, different emerging diseases have also highlighted their important role in infection dynamics. The current biodiversity crises considerably affect bats, making research into them timely from a conservation point of view.

In this Special Issue, original research and review papers that address the ecology, patterns of biodiversity, faunistics, acoustics, and conservation of bats are welcomed. We also welcome papers on bats and their parasites and different infectious diseases.

I look forward to receiving your contributions.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
