Deadline for manuscript  
submissions:

**31 October 2024**

### Message from the Guest Editor

Dear Colleagues,

While poultry production systems achieved great controlling effects in recent years, there are still many challenges that can negatively influence production efficiency and induce stress for poultry. High stocking density, high or low rearing temperatures, and reused litter can induce diverse issues such as microbial infection, heat or cold stress, foot pad dermatitis, and degraded meat quality in poultry. To cope with these challenges, it is important to understand the effects of these challenging conditions and the effects of appropriate nutritional interventions on the production and health of poultry. Thus, this Special Issue aims to examine challenging conditions in poultry production systems and find appropriate nutritional interventions to improve production efficiency and poultry health. The scope of this Special Issue includes, but is not limited to, parasitic infection, bacterial infection, heat stress, foot pad dermatitis, and nutritional interventions to cope with these issues in poultry production. We welcome research papers, case studies, and literature reviews.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2023, ranks 10/80 (Q1) in 'Agriculture, Dairy & Animal Science'; 16/167 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.0.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

**Journal Rank:** JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
